

## Critical Analysis of Robert Frost

Benjamin Swan Prof. Bittenbender ENG208W: Studies in Poetry 04/14/13 Frost's Metaphoric use of the Natural World in Poetry Born in San Francisco in the spring of 1874, Robert Frost is considered to be amongst, if not solely, the greatest poets in American history. Around age eleven, Frost moved to New England where the majority of his poetic inspiration is presumably drawn from. Although he never managed to obtain a collegiate degree, he did attend both Dartmouth and Harvard, two of the countries most prestigious universities.

Publishing his first poem entitled "My Butterfly" in 1894, Frost began his career as a poet just as the modernist literature movement of the early twentieth century was gaining traction in the United States. Although Frost did not break from poetic convention as radically as some of his peers in the modernist movement, he is nevertheless considered a modernist poet in part due to the use of the New England vernacular that is present in the majority of his poetry.

Another influence on Frost's work as a poet comes from New England as well; this is the influence of growing up in New England's natural landscape and the life he led on a farm there. Frost's love for the natural and tendency towards including it in his writing is possibly the most distinguishable constant in his work. The following quote best describes this constant in his work, "As Frost portrays him, man might be alone in an ultimately indifferent universe, but he may nevertheless look to the natural world for metaphors of his own condition. " (The Poetry Foundation).

The purpose of this paper will be to explore the some of the pieces in which Frost's use of nature as a metaphor or simile for the human condition, as well as identifying the theme that the human race is alone in the vast universe where it occurs. Perhaps the best example of this recurring theme and Frosts use of nature as a metaphor can be found in his poem "Nothing Gold Can Stay. " In this piece, nature's change from spring to summer is a metaphor for the loss of innocence in the world. Frost points to the fact that the world started out innocent when he opens by saying "Nature's first green is gold" (Line 1).

He glorifies our innocence by comparing it to the beauty of tree with golden buds just before they bloom. This observation and metaphor is true to the human condition as well, as we are born innocent. He continues on to describe how this doesn't last for very long though when he says, "Then leaf subsides to leaf" (5). He then makes an allusion to the Bible about this loss of innocence in the following line, "So Eden sank to grief," (6). As for the recurring theme, at the end of the poem man is left alone in the universe, stripped of innocence and disconnected from God.

Barron bring a new freshness and depth to the study of one of America's greatest poets While some critics discounted Frost as a poet without technical skill rhetorical complexity or intellectual depth over the past decade scholars

have begun to view Robert Frost's work from many new perspectives Critical hermeneutics cultural studies feminism postmodernism and textual editing all have had their impact on readings of the poet's life and work This collection of essays is the first to account for the variety of these new perceptions **Critical Insights: Robert Frost** Morris Dickstein, 2010 This volume brings together a variety of critical perspectives on Frost's life and works Four original essays provide valuable context for understanding and assessing his work They outline the work's historical and cultural contexts survey the major pieces of Frost criticism examine Frost's relationship with modernist poetics and consider how his use of paradox and contradiction participate in and differ from the use established by Whitman and Emerson Previously published essays deepen readers' understanding and offer a sampling of the key concerns of contemporary Frost critics **The Poems of Robert Frost** Mordecai Marcus, 1991 In writing this book my intention is to fill a need not met by any of the excellent critical books and collections of essays about Robert Frost's poems A few of these books provide analysis of up to 50 or 60 of Frost's poems But none offers as this work does a basic commonsensical explication of all 355 poems in *The Poetry of Robert Frost* 1969 edited by Edward Connery Lathem now the standard collection of Frost's poems from the Introduction by the author

Robert Frost's Visionary Gift William F. Zak, 2022-01-26 In *Robert Frost's Visionary Gift Mining and Minding the Wonder of Unexpected Supply* William F. Zak provides groundbreaking analysis of well over one hundred of Frost's lyrics considering each poem as an interrelated portion of the poet's overarching constellation of intention Beyond biography this book offers extended close readings of Frost's oeuvre building its case incrementally from deftly examined particulars Zak discusses how the pastoral mode Frost adopts is no depleted homespun idiom retreating from modernism's complexities but a self-conscious determination to assume the prophetic mantle from his predecessors Shakespeare Milton Wordsworth Emerson and Thoreau Frost's version of pastoral represents no escape from life's stresses but the most constructive and life-sustaining means to address life's struggles head-on in both sense of that last phrase This book makes a case for Frost as America's preeminent philosophical poet The unfortunate effect of Frost's early detractors' claim that he was merely an ironic and equivocal anecdotalist has for too long relegated his work to the second tier of the modernist poetic pantheon This study by contrast supports Robert Graves' claim for Frost as the first American poet who could be honestly reckoned a master poet by world standards Critical Essays on Robert Browning Mary Ellis Gibson, 1992 **Toward Robert Frost** Judith Oster, 1994-02-01

Every poem Robert Frost declared is an epitome of the great predicament a figure of the will braving alien entanglements This study considers what Frost meant by those entanglements how he braved them in his poetry and how he invited his readers to do the same In the process it contributes significantly to a new critical awareness of Frost as a complex artist who anticipated postmodernism a poet who invoked literary traditions and conventions frequently to set himself in tension with them Using the insights of reader response theory Judith Oster explains how Frost appeals to readers with his apparent accessibility and then because of the openness of his poetry's possibilities engages them in the process of constructing

meaning Frost's poems she demonstrates teach the reader how they should be read at the same time they resist closure and definitive reading. The reader's acts of encountering and constructing the poems parallel Frost's own encounters and acts of construction. Commenting at length on a number of individual poems, Oster ranges in her discussion from the ways in which the poet dramatizes the inadequacy of the self alone to the manner in which he reads the Book of Genesis or the writing of Emerson. Oster illuminates finally the central conflict in Frost: his need to be read well against his fear of being read; his need to share his creation against his fear of its appropriation by others.
