Critical Review Ofs In Religion 1993:

Values in Education Eva Burman,Maxine Cooper,Lorraine Ling,Joan Stephenson,Joan Stephenson****Nfa*****,2005-06-22 Based upon an empirical study involving training and practising teachers from seven countries this book investigates the various attitudes and practices towards the teaching of values and their place in the curriculum Countries covered include Australia Eire Israel Slovenia Switzerland UK and USA The findings of each of the countries are compared and contrasted in the light of the diverse cultural conditions which are apparent This book brings together various approaches currently taken in values education and also suggests a theoretical foundation for decision making The book culminates in practical examples drawn from the evidence of the research project which teachers can adapt for use with their own pupils This book provides a challenging and imaginative perspective on values in education and comes at a time when educators face a new era which demands dynamic transformative and reflective approaches Many Roads Lead Eastward Robert D. Miller II, OFS,2016-10-27 Is there a gap between the academic study of the Bible and the work of theologians What lies behind this gap And most important how have biblical scholars tried to bridge the gap with hermeneutical methods This book addresses the exegesis vs theology impasse and categorizes the most important attempts to bridge it over the past century especially those of the last decades These attempts are assessed and evaluated so that readers can see the philosophies undergirding each and the potential each has for a true theological interpretation of the Bible Arts & Humanities Citation Index ,1997 **Oral Law of Ancient Israel** Robert D. Miller II, OFS,2022-10-12 This book presents a new window on the legal system of Ancient Israel Building on the understanding that Israel was a society where writing was the medium for some forms of discourse but not others where written texts were performed orally and rewritten from oral performances Robert D Miller II OFS examines law and jurisprudence in this oral and literate world Using Iceland as an ethnographic analogy Miller shows how law was practiced performed and transmitted the way written artifacts of the law fit into oral performance and transmission and the relationship of the detritus of law that survives in the Hebrew Bible both Torah and Proverbs to that earlier social world Handbook of Children and Youth Studies Johanna Wyn,Helen Cahill,Hernán Cuervo,2024-08-20 This second edition of the handbook gives a new scientific perspective to youth and childhood studies as multi scientific and interdisciplinary subjects which as such have not yet found their own framing in a particular discipline It provides theoretical and methodological key debates and issues that develop and add an understanding of childhood and youth research discipline from a broader perspective The Handbook on Children and Youth Studies draws on current thinking but also challenges theoretical and conceptual orthodoxies in the field drawing on interdisciplinary thinking and critical perspectives It focuses on childhood and youth to address the emerging consensus that the boundaries between childhood youth and adulthood are blurred The view that defining youth and childhood largely in terms of problem topics is out dated Instead the handbook focuses on 16 themes that are open to international perspectives

and to different conceptual approaches Each theme is edited by a pair of field editors thereby capturing a plurality of views The 16 themes as a starting point are globally timely and they need scientific debates on the boundaries between childhoods youth and adulthood This handbook will meet the needs of childhood and youth researchers and the academics in the field It recognizes the changing social context of the lives of children and young people while developing theoretical frameworks and discussing about the core substantive issues of Children and Youth Studies
