Critical Theory of Religion: the Frankfurt School: from Universal Pragmatic to Political Theology Rudolf J. Siebert, 1985

**Manifesto of the Critical Theory of Society and Religion (3 vols.)** Rudolf Siebert, 2010-08-16 The Manifesto develops further the Critical Theory of Religion intrinsic to the Critical Theory of Society of the Frankfurt School into a new paradigm of the Psychology Sociology Philosophy and Theology of Religion Its central theme is the theodicy problem The Manifesto approaches this theme in the framework of comparative religion and critical political theology in a narrative and discursive fashion In search of a solution to the theodicy problem the Manifesto explores trends in civil society toward Alternative Future I the Totally Administered Society Alternative Future II the Militarized Society and Alternative Future III the Reconciled Society in the horizon of the longing for the Wholly Other as perfect justice and unconditional love Toward that goal it relies on both the critical theory of society as developed by Max Horkheimer Ernst Bloch Walter Benjamin Theodor W Adorno and others and on the new political theology of Johannes B Metz Helmut Peukert and Edmund Arens

**Critical Theory of Religion** Dustin J. Byrd, 2020-06

The Frankfurt School and the Dialectics of Religion Dustin Byrd, 2020-09 In his book The Frankfurt School and the Dialectics of Religion Translating Critical Faith into Critical Theory Dustin J Byrd argues that at the core of the Frankfurt School s Critical Theory is a secularized theology Unlike their predecessors especially Feuerbach Marx Lenin Freud and Nietzsche who argued for an abstract negation of religion the first generation of Critical Theorists followed Hegel s logic and attempted to rescue and preserve the revolutionary emancipatory and liberational aspects of religion in their secular non conformist philosophy They saw in both Judaism and Christianity certain conceptual and semantic elements that could be enlisted into their struggle for a future reconciled society one beyond the slaughterbench of history In order to rescue religion theological concepts had to go through the process of determinate negation wherein such materials migrate from the depth of the religious mythos into publicly accessible reasoning thus making the revolutionary impulse of prophetic religion accessible to the secular world Byrd also argues that this determinate negation of religion remains relevant to today s post secular societies especially in regard to religious Muslims attempting to find their place in Western countries which are often hostile to religion and religiosity Examining the strengths and weaknesses of Habermas famous translation proviso he argues that both religious and secular citizens of the West can learn from the Frankfurt School s dialectical approach to religion in order to find a space wherein both religious faith and secular reason can not only co exist but also join together in the process of creating a more reconciled future society

Vásquez, 2011 Over the past several decades postmodernist and postcolonial challenges to traditional theories and methods have revolutionized the social sciences The discipline of religious studies however has been relatively slow to confront these developments continuing to rely heavily on textual methods and a framework that privileges belief over practice doctrine over performance text over context and inner emotion over public ritual Recently however developments in social theory have begun to transform the study of religion In this book Manuel V squez maps out the dynamics of this paradigm shift exploring systematically the epistemological and methodological challenges contemporary social theory poses for traditional approaches to religious studies Offering a panoramic view of key debates on identity culture and society across the social sciences he assesses the impact of these debates on the study of religion offering specific examples of how they are shaping the study of particular religious traditions He concludes by proposing a robust yet flexible materialist approach to the study of religion that will be capable of addressing the increasing complexity of religious life      **Critical Theology** Carl A.
