Crocodiles Killers In The Wild:

Crocodiles Neil Hermes,1987 Discusses various types of crocodiles and alligators and where they can be found throughout the world *Australian National Bibliography* ,1978 **Natural Hazards** David Chapman,1994 Bushfires floods hurricanes and earthquakes are natural phenomena inspiring both fear and dread when human life or property is affected While a blizzard in Alaska may hardly be noticed that same blizzard in Sydney Australia would create havoc bringing with it a sudden emergency crisis as people attempted to keep warm in a city totally unused to such weather **Crocodile Undone** Marcus Baynes-Rock,2020-03-24 Across the world animals are being domesticated at an unprecedented rate and scale But what exactly is domestication and what does it tell us about ourselves In this book Marcus Baynes Rock seeks the common thread linking stories about the domestication of Australia's native animals arguing that domestication is part of a process by which late modernity threatens to undo the world In a deeply personal account the author tells of his encounters with crocodiles and emus behind fences dingoes and kangaroos crossing boundaries and native bees producing honey in his suburban backyard Drawing on comparisons between Aboriginal and colonial Australians Baynes Rock reveals how the domestication of Australia's fauna is a process of unmaking As an extension of late modernity the connections that tie humans and other animals to wider ecologies are being severed threatening to isolate us and our domesticates from the rest of the world It is here that Baynes Rock reveals a key difference between Aboriginal and colonial Australian modes of landscape management while one is focused on a systemic approach and sees humans as integral to ecological integrity the other seeks to sever domesticates from ecological processes The question that emerges is How might we reconfigure and maintain these connections without undoing humanity Written in the author's characteristically frank passionate and humorous style **Crocodile Undone** takes the reader on a journey across both physical and philosophical landscapes This fascinating narrative will appeal to anyone interested in the vital connections between humans and animals **Australian Books in Print** ,1991 *Books in Print* ,1991 **Alligators** Barbara Sleeper,1996 Examines the life cycle and behavior of the American alligator **Recent Advances in Environmental Science** K.
