Charles I and his Parliament is one of the most momentous conflicts in English history This book provides a wholly new perspective by revealing the extent to which the struggle possessed an ethnic dimension and the impact of that on the forging of English national identity Stoye reveals the acute fear of foreign invasion that gripped England after 1640 when the insular English were placed on the brink of what they perceived as a national emergency Stoye sets the creation of the New Model Army within that context arguing that its appearance represented the culmination of a campaign by Oliver Cromwell and others to forge a purely English military instrument one purged of the foreign soldiers who had been so prominent in earlier Parliamentary armies This self consciously English army eventually succeeded in wresting back control of the kingdom by defeating the king's forces re conquering Cornwall and Wales and expelling all foreign agents
