Crooked Flight:

Flying Crooked Jan Michael, 2005 There are many books about the processes people go through when they discover they have cancer What makes Flying Crooked different is the author's acceptance of the disease and its consequences She continues to enjoy life refuses radiotherapy and rejects the idea of wearing a prosthesis after a mastectomy The choices she makes are in sharp contrast to those made by her ex lover Simon who shortly after her operation is diagnosed with prostate cancer Their different ways of coping form a well balanced diptych on her part acceptance and the peace that this brings on his fighting and anger at the cost of precious energy and enjoyment Flying Crooked describes the process of a search for balance The open direct and unsentimental manner in which Michael describes her decisions as well as her experiences in and out of the hospital take this from an account of coping with disease to an inspirational story of love friendship and faith
