Cross & Cockade Journal ,1984 History of Technology Volume 21 Graham Hollister-Short,2016-09-30 The technical problems confronting different societies and periods and the measures taken to solve them form the concern of this annual collection of essays Volumes contain technical articles ranging widely in subject time and region as well as general papers on the history of technology In addition to dealing with the history of technical discovery and change History of Technology also explores the relations of technology to other aspects of life social cultural and economic and shows how technological development has shaped and been shaped by the society in which it occurred **Balloon-Busting Aces of World War 1**

Jon Guttman,2013-05-20 Tethered balloons reached their zenith as a means of providing a stationary observation platform above the battlefield during World War I It took a special breed of daredevil to take on such odds deep in enemy lines in order to destroy a balloon with Balloon specialists such as Willy Coppens Pierre Bourjade and Michel Coiffard rising to the challenge This book covers the story of these balloon busters from both sides in World War 1 through a mix of first hand accounts and expert analysis which compares tactics theatres of operation aircraft types and the overall odds for success

Winged Warfare Michael Paris,1992 This original study provides a significant reinterpretation of the development of air power in Britain highlighting how in the period before 1914 aerial warfare was already becoming an increasingly forceful concept *Dowding of Fighter Command* Vincent Orange,2008-10-30 An extensive biography of the life and distinguished military career of the Scottish air chief marshal Making full use of archival sources studies by other scholars and information provided by family members Vincent Orange has completed the first biography of Air Chief Marshal Sir Hugh Dowding to cover his entire life Soldier pilot wireless pioneer squadron commander spiritualist champion skier Stuffie Dowding is perhaps best known as the creator of the first radar based air defense system and his no less remarkable management of such throughout the Battle of Britain Dowding served in delightful and dangerous Iraq helped to pacify unrest in the Holy Land was involved in the R 101 airship disaster and oversaw the creation of Britain s first eight gun monoplane the Hurricane and Spitfire Controversially dismissed from Fighter Command and refused the R A F s highest rank he nevertheless became the first airman elevated to the peerage since Trenchard Westminster Abbey was packed for his memorial service in March 1970 with more than 46 air marshals in attendance and in 1988 H M the Queen Mother unveiled a statue in his honor With his expert eye respected historian Orange has analyzed and evaluated every episode of Dowding s exceptional career to produce the definitive biography *Over the Front* ,2008 **Lighter Than Air** Guy Warner,2016-06-30 Neville Florian Usborne entered the Royal Navy as a cadet in 1897 In the years between him joining up and the outbreak of the First World War he engaged in a huge number of enterprises and endeavours Praise and respect garnered in accordance with his achievements all helped to establish his reputation in later years as an irreplaceable pioneer and a leading light of early British airship design His fertile imagination and enterprising spirit fused to form a dynamic personality able in wartime to draw up

countless schemes in an effort to outwit the enemy His chief task during the Great War was to dream up new tactics and designs to combat the Zeppelin menace perceived as one of the most damaging threats of the entire conflict He was also deeply involved in the design of the very successful SS and Coastal Class airships indeed during 1915 he was actually appointed Inspector Commander of Airships at the Admiralty Unfortunately his illustrious career was destined to be cut short in 1916 when he was killed testing a prototype of one of his own designs This new biography seeks to shine a light on an overlooked pioneer of early aviation and it does so in entertaining and reverential style The importance of Usborne the pioneer is made plain as one of his contemporaries commented upon his death No one can talk of the early days of British airship design without mention of his name and work A personality was lost on that February day which was irreplaceable

The Lafayette Flying Corps Dennis Gordon,2000 This new book contains not only a history of the legendary Lafayette Flying Corps but also detailed biographies of the 269 volunteer American airmen and gunners of France s Service Aeronautique who flew in sixty six pursuit and twenty seven bomber observation squadrons over the Western Front also included are the thirty eight pilots of the Escadrille Lafayette It is an accurate and absorbing account of the lives and combat experiences of the men who later formed the nucleus of the American Expeditionary Force squadrons This ground breaking work contains comprehensive research including details of war casualties and survivors and many unpublished photographs

The Birth of Independent Air Power Malcolm Cooper,2021-03-30 In forming the Royal Air Force on 1 April 1918 Britain created the world s first independent air service Britain entered the First World War with less than 200 ill assorted flying machines divided between the army and the navy but by the end of the war the RAF mustered almost 300 000 personnel and 22 000 aircraft Originally published in 1986 more than 65 years after the event the decision to form the RAF remained poorly understood and Malcolm Cooper presented the first detailed modern analysis of its creation shedding new light on the process by which Britain entered the air age Set against the background of the build up of air power during the First World War the book explains how deepening political concern at failures in home air defence public demands for retaliatory air action against Germany problems of mobilization and expansion in the aircraft industry and disagreements between the existing army and navy air services combined to create the conditions for an independent air force The author argues that the pressures of war were insufficient to give real substance to the RAF s independence and that its failure to escape from its wartime role as an ancillary service was also of crucial significance in the evolution of British air strategy in later years Based on an extensive study of official documents and private papers and amply illustrated with contemporary photographs this title will prove invaluable in understanding both strategic thinking in the Great War and the early development of a form of warfare which dominated military and naval operations in the twentieth century *Blue Skies, Orange Wings* Noppen,2015-04-07 Through a wealth of photographs and color illustrations and an informed narrative *Blue Skies Orange Wings* documents the surprisingly strong role of Dutch aircraft airmen designers and airlines in world aviation in the first

half of the twentieth century In this beautiful book Ryan Noppen offers the most thorough study of the early years of Dutch commercial and military aviation published in the English language He examines the famed Fokker airliners the development of Dutch national airline KLM and their impact on the world in the pioneering days of flight including a number of notable individuals Charles Lindbergh Henry Ford Amelia Earhart and more *The Publishers' Circular and Booksellers' Record*, 1911 **The Bookseller and the Stationery Trades' Journal**, 1896 Official organ of the book trade of the United Kingdom **The Publisher**, 1909 **Publishers' Circular and Booksellers' Record of British and Foreign Literature**, 1906 **British Books**, 1911 **Barker VC** Wayne Ralph, 1997 When William Barker died in an air crash in March 1930 his state funeral was the largest in the history of Toronto The cortege was two miles long with 2000 uniformed men as escort and 50 000 spectators looking on He was after all a magnificent airman a great war hero and holder of the Victoria Cross the DSO and Bar the MC and two Italian Silver Medals for Valour and three Mentions in Despatches Moreover he had 50 Great War victories in the air to his credit But his life and achievements have to all intents and purposes been forgotten or at best overlooked when compared to that other great Canadian war hero Billy Bishop Why Wayne Ralph made it his mission to find out In what was to become for him a five year emotional journey Ralph has solved many mysteries and laid to rest many half truths about the man His book is detailed meticulously researched and excellently crafted It holds the interest from beginning to end and deserves to be viewed as the definitive biography of Lieutenant Colonel William Barker warts and all and a fitting testimony to the life and time of a legend **Nieuport Aircraft of World War One** Ray Sanger, 2002 The French firm of Nieuport built some of the most numerous best looking and effective fighting planes of World War I they type 17 and 29 gaining particular fame Ray Sanger's authoritative book covers all these aircraft in detail paying attention to both thetical detail and operational use Illustrated throughout with rare photographs this will be an indispensable volume for any World War I aviation library Ulrich's International Periodicals Directory Carolyn Farquhar Ulrich, 1998 *Lt. Henry R. Clay* Marvin L. Skelton, George Hopkins Williams, 1998 **Faxon ... Librarians' Guide to Serials**, 1985
