Crosscurrents International Relations In The Post Cold War Era:

Crosscurrents Mark Charlton, 2004-11-25 Turn your classroom into a forum for debate and discussion with the Fourth Edition of *Crosscurrents*. Experts from around the world debate important issues related to the study of international relations and foreign policy from both a Canadian and an international perspective. Author Mark Charlton frames each issue with a well-written introductory essay and post script to further enhance the learning experience. With its lively and effective yes/no debate format, *Crosscurrents* continues to provide students with a stimulating collection of essays that encourages the development of critical thought and analytical skills involving major issues of the day. **Crosscurrents** Mark

Charlton, 1999 Is international peacekeeping doomed to fail? Does economic globalization advance the cause of human rights? Does the United Nations need a radical overhaul? With 18 new issues and 38 new thought-provoking discussions by leading academics, journalists, politicians, and activists, the second edition of this text continues to provide an in-depth look at current issues that brings to life the concepts and theories of international relations and turns classrooms into forums for debate and discussion. Crosscurrents Mark William Charlton, Elizabeth Riddell-Dixon, 1993 *Crosscurrents International Relations*

, 2015 **Introduction to a Theory of Political Power in International Relations** Zlatko Isakovic, 2019-07-16 This title was first published in 2000. An in-depth look at the definition of power. The writing is well-crafted and very readable and comprises a range of theoretical deliberations and analysis of the numerous aspects of political power and its use in international relations. This includes an examination of idea and structure, population, territory, economics, military, the political system, ideology, and morale, and its forms appearing in international relations in the past, present, and future, influence, and force. This, coupled with the author's gift for teasing out the pertinent points in an argument and using relevant and interesting examples, provides an excellent piece of comprehensive insight into a theory of political power. *Rethinking Power, Institutions and Ideas in World Politics* Amitav Acharya, 2014-01-10 The study of international relations has traditionally been dominated by Western ideas and practices and marginalized the voice and experiences of the non-Western states and societies. As the world moves to a post-Western era, it is imperative that the field of IR acquires a more global meaning and relevance. Drawing together the work of renowned scholar Amitav Acharya and framed by a new introduction and conclusion written for the volume, this book exposes the narrow meaning currently attached to some of the key concepts and ideas in IR and calls for alternative and broader understandings of them. The need for recasting the discipline has motivated and undergirded Acharya's own scholarship since his entry into the field over three decades ago. This book reflects his own engagement, quarrels, and compromise and concludes with suggestions for new pathways to a Global IR: a forward-looking and inclusive enterprise that is reflective of the multiple and global heritage of IR in an changing and interconnected world. It is essential reading for anyone who is concerned about the history, development, and future of international relations and international relations theory. *The transatlantic divide* Osvaldo Croci, Amy Verdun, 2024-07-30 This book is available in

paperback for the first time examines the period between the military intervention against Serbia by NATO and the one in Iraq by the US. It has been a particularly turbulent one for transatlantic security relations. Is the malaise currently affecting the Transatlantic Alliance more serious than ever before and if so why? Will differences in the assessment of how to provide order and stability in the international system as well as in the evaluation of threats and how to respond to them mark the end of the Transatlantic Alliance? Or will the US, NATO, the EU and EU member states work together using different instruments and accepting a degree of division of labour to pacify, stabilise and rebuild troublesome areas as they have done in South Eastern Europe? This book with contributions from leading American, Canadian and European scholars analyses the reasons behind the latest crisis of the Transatlantic Alliance and dissects its manifestations. Crosscurrents Mark Charlton, Paul Barker, 1998. Canadian International Development Assistance Policies Cranford Pratt, 1996. For 25 years Canadians have argued whether the Canadian International Development Agency is the primary vehicle for helping basic human and development needs of the poorest countries and people or a tool for commercial exploitation and foreign policy. Contributors from the government, development organizations and academia analyze the components of Canadian aid, the issues the agency has to deal with and the pressures it responds to. The End of American World Order Amitav Acharya, 2014-04-25. The age of Western hegemony is over. Whether or not America itself is declining, the post-war liberal world order underpinned by US military, economic and ideological primacy and supported by global institutions serving its power and purpose is coming to an end. But what will take its place? A Chinese world order? A re-constituted form of American hegemony? A regionalized system of global cooperation including major and emerging powers? In this timely and provocative book Amitav Acharya offers an incisive answer to this fundamental question. While the US will remain a major force in world affairs, he argues that it has lost the ability to shape world order after its own interests and image. As a result, the US will be one of a number of anchors including emerging powers, regional forces and a concert of the old and new powers shaping a new world order. Rejecting labels such as multipolar, apolar or G Zero, Acharya likens the emerging system to a multiplex theatre offering a choice of plots, ideas, directors, power and action leadership under one roof. Finally, he reflects on the policies that the US, emerging powers and regional actors must pursue to promote stability in this decentred but interdependent multiplex world. Written by a leading scholar of the international relations of the non-Western world and rising above partisan punditry, this book represents a major contribution to debates over the post-American era. *Governance and Resistance in World Politics* David Armstrong, James David Armstrong, Theo Farrell, Bice Maiguashca, 2003. The emergence of global governance challenges conventional interpretations of world politics regarding conflicts of interests between sovereign states under conditions of anarchy. At the same time, the new phenomena of anti-globalization, demonstrations, transnational social movements and an emergent global civil society point to important developments in international relations. Leading scholars reflect on the usefulness of thinking about these processes as a

dichotomy between the politics of governance and the politics of resistance and consider its application to international relations *Human Rights and International Relations in the Asia-Pacific Region* James Tuck-Hong Tang,1995 Appraisal by Joseph Chan **Human Rights Dilemmas in Contemporary Times** Ashraful Hasan,1998-04 This study examines and analyzes human rights issues from a comparative perspective As the concept of universal human rights gains increasing acceptance in the international community it has come into conflict with formulations of human rights existing in different cultures and legal systems of the world An attempt is made in this study to provide a comprehensive understanding of patterns of human rights values and violations extant in various societies Chapters incorporated in this manuscript will include topics relevant to both international relations and comparative politics International Journal ,1993 Annual Report - Harvard University, Center for International Affairs Harvard University.
