Crossing Frontiers Gerontology Emerges As A Science:

Crossing Frontiers W. Andrew Achenbaum, 1995-08-25 This is the first book length study of the history of gerontology It shows how old age became a problem worth investigating and how a multidisciplinary orientation took shape Science, Technology and the Ageing Society Tiago Moreira, 2016-12-19 Ageing is widely recognised as one of the social and economic challenges in the contemporary globalised world for which scientific technological and medical solutions are continuously sought This book proposes that science and technology also played a crucial role in the creation and transformation of the ageing society itself Drawing on existing work on science technology and ageing in sociology anthropology history of science geography and social gerontology *Science Technology and the Ageing Society* explores the complex interweaving relationship between expertise scientific and technological standards and social normatively embedded age identities Through a series of case studies focusing on older people science and technology medical research about ageing and ageing related illnesses and the role of expertise in the management of ageing populations Moreira challenges the idea that aging is a problem for the individual and society Tracing the epistemic and technological infrastructures that underpin multiple of ways of aging this timely volume is a crucial tool for undergraduate and graduate students interested in social gerontology health and social care sociology of aging science and technology studies and medical sociology *The Fountain of Youth* Stephen G. Post, Robert H. Binstock, 2004-04-08 If effective anti aging interventions were achieved they would likely bring about profound alterations in the experiences of individual and collective life What if modern scientists could find the modern equivalent to the Fountain of Youth that Ponce de Leon sought This book addresses this question by exploring the ramifications of possible anti aging interventions on both individual and collective life Through a series of essays it examines the biomedical goal of prolongevity from cultural scientific religious and ethical perspectives offering a sweeping view into the future of aging **Self, Senility, and Alzheimer's Disease in Modern America** Jesse F. Ballenger, 2006-03-31

epidemiology gerontology political science psychology social work sociology and statistics Brings together the work of almost fifty leading scholars to provide a deeper understanding of aging Old Age, New Science Hyung Wook Park, 2016-03-09

Between 1870 and 1940 life expectancy in the United States skyrocketed while the percentage of senior citizens age sixty five and older more than doubled a phenomenon owed largely to innovations in medicine and public health At the same time the Great Depression was a major tipping point for age discrimination and poverty in the West seniors were living longer and retiring earlier but without adequate means to support themselves and their families The economic disaster of the 1930s alerted scientists who were actively researching the processes of aging to the profound social implications of their work and by the end of the 1950s the field of gerontology emerged Old Age New Science explores how a group of American and British life scientists contributed to gerontology's development as a multidisciplinary field It examines the foundational biosocial visions they shared a byproduct of both their research and the social problems they encountered Hyung Wook Park shows how these visions shaped popular discourses on aging directly influenced the institutionalization of gerontology and also reflected the class gender and race biases of their founders Profiles in Gerontology W. Andrew Achenbaum, Daniel M. Albert, 1995-09-14 Following an introduction that outlines the history and projects the future of gerontology the authors offer insightful profiles of roughly 300 researchers teachers and practitioners in aging North Americans are heavily represented though gerontologists from Great Britain and the Continent are included as well The dictionary can be read for an overview of the field while cross listings and a complete name and subject index make it an ideal reference Each entry contains a professional and academic biography along with citations and succinct descriptions of the individual's important contributions to the study of the elderly and aging **The Journal of American History** Organization of American historians, **Social Science and Policy-Making** David Lee Featherman, Maris Arvids Vinovskis, 2009-12-21 How the social sciences in America were developed as a means of social reform **Key Words in Sociocultural Gerontology** W. Andrew Achenbaum, Steven Weiland, Carole Haber, 1996 Qualitative Gerontology Graham D. Rowles, 2002 The authors provide a contemporary perspective on the status of qualitative research in gerontology The second edition examines recent trends in the application of qualitative methodologies and the emergence of new qualitative techniques such as focus groups studies of personal histories and the use of photography Chapters include discussions of critical and feminist perspectives practice issues ethical issues and the contribution of qualitative research to the progress of science Doing Science and Doing Good Richard L.
