The Renewal of Generosity Arthur W. Frank, 2009-11-19 Contemporary health care often lacks generosity of spirit even when treatment is most efficient Too many patients are left unhappy with how they are treated and too many medical professionals feel estranged from the calling that drew them to medicine Arthur W Frank tells the stories of ill people doctors and nurses who are restoring generosity to medicine generosity toward others and to themselves The Renewal of Generosity evokes medicine as the face to face encounter that comes before and after diagnostics pharmaceuticals and surgeries Frank calls upon the Roman emperor Marcus Aurelius philosopher Emmanuel Levinas and literary critic Mikhail Bakhtin to reflect on stories of ill people doctors and nurses who transform demoralized medicine into caring relationships He presents their stories as a source of consolation for both ill and professional alike and as an impetus to changing medical systems Frank shows how generosity is being renewed through dialogue that is more than the exchange of information Dialogue is an ethic and an ideal for people on both sides of the medical encounter who want to offer more to those they meet and who want their own lives enriched in the process The Renewal of Generosity views illness and medical work with grace and compassion making an invaluable contribution to expanding our vision of suffering and healing The New Testament and Bioethics R. Dennis Macaleer, 2014-01-01 Beauchamp and Childress's Principles of Biomedical Ethics is a well accepted approach to contemporary bioethics Those principles are based on what Beauchamp and Childress call the common morality This book employs New Testament theological themes to enhance the meaning of those principles of bioethics The primary New Testament text for this study is the twin commands from Jesus to love God and love one's neighbor The three theological themes developed from this study the image of God the covenant and the pursuit of healing are deeply embedded in the New Testament and in the ministry of Jesus Three contemporary bioethics principles are used for this dissertation based on The Belmont Report They are the principles of respect for persons justice and beneficence In each case the theological themes are shown to enhance the meaning of these bioethics principles Each of the three principles as understood through the three theological themes is applied to a current bioethics issue to demonstrate the efficacy of this approach The three current issues addressed are the withdrawal or withholding of life sustaining treatment the distribution of health care in the United States and the use of palliative care *Narrative Research in Health and Illness* Brian Hurwitz, Trisha Greenhalgh, Vieda
