Center for Mexican American Studies, 1997 The contributors to this volume representing a wide variety of disciplines including medicine social work political science sociology anthropology psychology and biology are in agreement that the health and human services offered in industrial nations are generally monocultural and not well suited for migrants from other cultures One article even arrives at the disquieting conclusion that the mental health services offered to immigrants not only do not respond to their needs but rather serve to reinforce negative perceptions regarding immigrants from third world countries This book represents a timely and urgently needed contribution to the discourse on health services for migrants It demonstrates that the issues and problems of immigration in the United States and Europe have many commonalities and that much can be learned from examining the experiences successes and failures of both *Border Bandits* Camilla Fojas, 2008-12-01 The southern frontier is one of the most emotionally charged zones in the United States second only to its historical predecessor and partner the western frontier Though they span many genres border films share common themes trace the mood swings of public policy and shape our cultural agenda In this examination Camilla Fojas studies how major Hollywood films exploit the border between Mexico and the United States to tell a story about U S dominance in the American hemisphere She charts the shift from the mythos of the open western frontier to that of the embattled southern frontier by offering in depth analyses of particular border films from post World War II Westerns to drug trafficking films to contemporary Latino a cinema within their historical and political contexts Fojas argues that Hollywood border films do important social work by offering a cinematic space through which viewers can manage traumatic and undesirable histories and ultimately reaffirm core American values At the same time these border narratives delineate opposing values and ideas Latino border films offer a critical vantage onto these topics they challenge the presumptions of U S nationalism and subsequent cultural attitudes about immigrants and immigration and often critically reconstruct their Hollywood kin By analyzing films such as *Duel in the Sun* *The Wild Bunch* *El Norte* *The Border Traffic* and *Brokeback Mountain* Fojas demands that we reexamine the powerful mythology of the Hollywood borderlands This detailed scrutiny recognizes that these films are part of a national narrative comprised of many texts and symbols that create the myth of the United States as capital of the Americas **No One is Illegal (Updated Edition)** Justin Akers Chacón, Mike

Davis,2018-05-09 Countering the chorus of anti immigrant voices that have grown increasingly loud in the current political moment No One is Illegal exposes the racism of anti immigration vigilantes and puts a human face on the immigrants who risk their lives to cross the border to work in the United States This second edition has a new introduction to frame the analysis of the struggle for immigrant rights and the roots of the backlash Justin Akers Chac n is the author of the forthcoming Radicals in the Barrio Magonistas Socialists Wobblies and Communists in the Mexican American Working Class Mike Davis is the author many books including The Ecology of Fear and Planet of Slums **Loyola of Los Angeles**
