Crossing The Sound The Rise Of Atlantic American Communities In Seventeenth Century Eastern Long Island:

Crossing the Sound Faren R. Siminoff, 2004-08 Early Long Island New England history exploring how relations between settlers and natives were more harmonious and equal than the record usually states **Contested Spaces of Early America** Juliana Barr, Edward Countryman, 2014-04-21 Colonial America stretched from Quebec to Buenos Aires and from the Atlantic littoral to the Pacific coast Although European settlers laid claim to territories they called New Spain New England and New France the reality of living in those spaces had little to do with European kingdoms Instead the New World's holdings took their form and shape from the Indian territories they inhabited These contested spaces throughout the western hemisphere were not unclaimed lands waiting to be conquered and populated but a single vast space occupied by native communities and defined by the meeting mingling and clashing of peoples creating societies unlike any that the world had seen before Contested Spaces of Early America brings together some of the most distinguished historians in the field to view colonial America on the largest possible scale Lavishly illustrated with maps Native art and color plates the twelve chapters span the southern reaches of New Spain through Mexico and Navajo Country to the Dakotas and Upper Canada and the early Indian civilizations to the ruins of the nineteenth century West At the heart of this volume is a search for a human geography of colonial relations Contested Spaces of Early America aims to rid the historical landscape of imperial cores frontier peripheries and modern national borders to redefine the way scholars imagine colonial America Contributors Matthew Babcock Ned Blackhawk Chantal Cramaussel Brian DeLay Elizabeth Fenn Allan Greer Pekka Hämäläinen Randall Joselyn Mandrini Cynthia Radding Birgit Brander Rasmussen Alan Taylor and Samuel Truett *Advancing Empire* L. H. Roper, 2017-07-03 In *Advancing Empire* L. H. Roper explores the origins and early development of English overseas expansion Roper focuses on the networks of aristocrats merchants and colonial imperialists who worked to control the transport and production of exotic commodities such as tobacco and sugar as well as the labor required to produce them He is primarily interested in the relationship between the English state and the people it governed the role of that state in imperial development the socio political character of English colonies and English relations with Asians Africans American Indians and other Europeans overseas The activities stimulated the expansion and integration of global territorial and commercial interests that became the British Empire in the eighteenth century In exploring these activities from a wider perspective Roper offers a novel conclusion that revises popular analyses of the English Empire and of Anglo America **The Way of Improvement Leads Home** John Fea, 2013-04-18 *The Way of Improvement Leads Home* traces the short but fascinating life of Philip Vickers Fithian one of the most prolific diarists in early America Born to Presbyterian grain growers in rural New Jersey he was never quite satisfied with the agricultural life he seemed destined to inherit Fithian longed for something more to improve himself in a revolutionary world that was making upward mobility possible While Fithian is best known for the diary that he wrote in 1773-74 while working as a tutor at Nomini Hall the Virginia plantation of Robert Carter this first full

biography moves beyond his experience in the Old Dominion to examine his inner life his experience in the early American backcountry his love affair with Elizabeth Beatty and his role as a Revolutionary War chaplain From the villages of New Jersey Fithian was able to participate indirectly in the eighteenth century republic of letters a transatlantic intellectual community sustained through sociability print and the pursuit of mutual improvement The republic of letters was above all else a rational republic with little tolerance for those unable to rid themselves of parochial passions Participation required a commitment to self improvement that demanded a belief in the Enlightenment values of human potential and social progress Although Fithian was deeply committed to these values he constantly struggled to reconcile his quest for a cosmopolitan life with his love of home As John Fea argues it was the people the religious culture and the very landscape of his native sod that continued to hold Fithian s affections and enabled him to live a life worthy of a man of letters The Long Island Historical Journal ,2003 *Connected Worlds* Ann Curthoys,Marilyn Lake,2006-03-01 This volume brings together historians of imperialism and race travel and modernity Islam and India the Pacific and the Atlantic to show how a transnational approach to history offers fresh insights into the past Transnational history is a form of scholarship that has been revolutionising our understanding of history in the last decade With a focus on interconnectedness across national borders of ideas events technologies and individual lives it moves beyond the national frames of analysis that so often blinker and restrict our understanding of the past Many of the essays also show how expertise in Australian history can contribute to and benefit from new transnational approaches to history Through an examination of such diverse subjects as film modernity immigration politics and romance *Connected Worlds* weaves an historical matrix which transports the reader beyond the local into a realm which re defines the meaning of humanity in all its complexity Contributors include Tony Ballantyne Desley Deacon John Fitzgerald Patrick Wolfe and Angela Woollacott *New York State: Peoples, Places, and Priorities* Joanne Reitano,2015-08-11 The state of New York is virtually a nation unto itself Long one of the most populous states and home of the country s most dynamic city New York is geographically strategic economically prominent socially diverse culturally innovative and politically influential These characteristics have made New York distinctive in our nation s history In *New York State Peoples Places and Priorities* Joanne Reitano brings the history of this great state alive for readers Clear and accessible the book features Primary documents and illustrations in each chapter encouraging engagement with historical sources and issues Timelines for every chapter along with lists of recommended reading and websites Themes of labor liberty lifestyles land and leadership running throughout the text Coverage from the colonial period up through the present day including the Great Recession and Andrew Cuomo s governorship Highly readable and up to date *New York State Peoples Places and Priorities* is a vital resource for anyone studying teaching or just interested in the history of the Empire State

Thundersticks David J. Silverman,2016-10-10 David Silverman argues against the notion that Indians prized flintlock muskets more for their pyrotechnics than for their efficiency as tools of war Native peoples fully recognized the potential of

firearms to assist them in their struggles against colonial forces and mostly against one another as arms races erupted across North America **American Book Publishing Record** ,2003 *International Journal of Maritime History* ,2007 **The New York Genealogical and Biographical Record** ,2004 *Perspectives* ,2004 **Northeast Anthropology** ,2005

Keeping Time in Sag Harbor Joyce Egginton,2007 For 300 years Sag Harbor has been a prism reflecting facets of American history from its heyday as a prominent whaling port worthy of mention in Moby Dick to a factory town shipping out Bulova watches to its latest incarnation as an alternative coastal retreat to the exclusive Hamptons Stephen Longmire explores the stories of this renowned eastern Long Island community in Keeping Time in Sag Harbor a unique combination of fine art photographs and historical text Architecture is a cornerstone of Sag Harbor s charm because the village has preserved a full range of buildings dating from the American Revolution to the present These include the stately eighteenth and nineteenth century mansions lining what realtors have dubbed Captains Row the modest homes of generations of working people from diverse backgrounds the commercial facades of Main Street and preserved public buildings such as the early Custom House and Minard Lafever s Whalers Church The work to protect this architecture and the economic and ecological balance it embodies in the face of booming real estate development is at the heart of Longmire s account Interviews with residents both new and old chart the evolving character of the village exploring how it has struggled to retain its identity while learning to sustain itself on tourism Anchoring this story are Longmire s own color photographs of Sag Harbor today and archival photographs and maps that reveal the many layers to the community s sense of place Keeping Time in Sag Harbor is an intimate portrait of a special place that is changing fast despite almost all of the town being listed on the National Register of Historic Places Through Longmire s images and words we appreciate why Sag Harbor is both a unique American village and an example of what is happening to communities across the United States from Santa Fe to South Beach Book Jacket *New York History* ,2005 Race Histories Katherine Frances Howlett Hayes,2008 **The Mariner's Mirror Bibliography for ...** ,2006 **Connecticut History** ,2005 **America, History and Life** ,2006 Article abstracts and citations of reviews and dissertations covering the United States and Canada **Bibliographic Index** ,2008
