Crossing Lines Race And Mixed Race Across The Geohistorical Divide:

Crossing Lines Marc Coronado, 2003 *Crossing Lines* addresses the issues of race and mixed race at the turn of the 21st century. Representing multiple academic disciplines including history, ethnic studies, art history, education, English, and sociology, the volume invites readers to consider the many ways that identity, community, and collectivity are formed while addressing the challenges that multiracial identity poses to our understanding of race and ethnicity. The authors examine such subjects as social action, literary representations of multiracial people, curriculum development, community formation, Whiteness, and demographic changes. *Handbook of Research on Educational Leadership for Equity and Diversity* Linda C. Tillman, James Joseph Scheurich, 2013-08-21 The rapid growth of diversity within U.S. schooling and the heightened attention to the lack of equity in student achievement, school completion, and postsecondary attendance has made equity and diversity two of the principle issues in education, educational leadership, and educational leadership research. The *Handbook of Research on Educational Leadership for Equity and Diversity* is the first research-based handbook that comprehensively addresses the broad diversity in U.S. schools by race, ethnicity, culture, language, gender, disability, sexual identity, and class. The Handbook both highly values the critically important strengths and assets that diversity brings to the United States and its schools yet at the same time candidly critiques the destructive deficit thinking, biases, and prejudices that undermine school success for many groups of students. Well-known chapter authors explore diversity and related inequities in schools and the achievement problems these issues present to school leaders. Each chapter reviews theoretical and empirical evidence of these inequities and provides research-based recommendations for practice and for future research. Celebrating the broad diversity in U.S. schools, the *Handbook of Research on Educational Leadership for Equity and Diversity* critiques the inequities connected to that diversity and provides evidence-based practices to promote student success for all children.

Contemporary Asian America (second Edition) Min Zhou, J. V. Gatewood, 2007-10 When *Contemporary Asian America* was first published, it exposed its readers to developments within the discipline from its inception as part of the ethnic consciousness movement of the 1960s to the more contemporary theoretical and practical issues facing Asian America at the century's end. This new edition features a number of fresh entries and updated material. It covers such topics as Asian American activism, immigration, community formation, family relations, gender roles, sexuality, identity, struggle for social justice, interethnic conflict, coalition, and political participation. As in the first edition, *Contemporary Asian America* provides an expansive introduction to the central readings in Asian American Studies, presenting a grounded theoretical orientation to the discipline and framing key historical, cultural, economic, and social themes with a social science focus. This critical text offers a broad overview of Asian American studies and the current state of Asian America. **The United States of the United Races** Greg Carter, 2013-04-22 This provocative, ambitious, and important book rewrites U.S. history, placing foundational leaders, unheralded prophets, insurgent social movements, pivotal judicial decisions, and central cultural values within an

unfolding story of ongoing appeals to interracial mixing as a positive good Deeply researched deftly argued and impressively able to move beyond the two categories of black and white The United States of the United Races makes the mixed race movements of the recent past resonate with their many antecedents showing the complex ways in which an emphasis on mixture has both deployed and destabilized racial categories David Roediger co author of The Production of Difference Barack Obama s historic presidency has re inserted mixed race into the national conversation While the troubled and pejorative history of racial amalgamation throughout U S history is a familiar story The United States of the United Races reconsiders an understudied optimistic tradition one which has praised mixture as a means to create a new people bring equality to all and fulfill an American destiny In this genealogy Greg Carter re envisions racial mixture as a vehicle for pride and a way for citizens to examine mixed America as a better America Tracing the centuries long conversation that began with Hector St John de Crevecoeur s Letters of an American Farmer in the 1780s through to the Multiracial Movement of the 1990s and the debates surrounding racial categories on the U S Census in the twenty first century Greg Carter explores a broad range of documents and moments unearthing a new narrative that locates hope in racial mixture Carter traces the reception of the concept as it has evolved over the years from and decade to decade and century to century wherein even minor changes in individual attitudes have paved the way for major changes in public response The United States of the United Races sweeps away an ugly element of U S history replacing it with a new understanding of race in America Greg Carter is Assistant Professor of History at the University of Wisconsin Milwaukee

Blasian Invasion Myra S.

Washington, 2017-10-26 Myra S Washington probes the social construction of race through the mixed race identity of Blasians people of Black and Asian ancestry She looks at the construction of the identifier Blasian and how this term went from being undefined to forming a significant role in popular media Today Blasian has emerged as not just an identity Black Asian mixed race people can claim but also a popular brand within the industry and a signifier in the culture at large Washington tracks the transformation of Blasian from being an unmentioned category to a recognized status applied to other Blasian figures in media Blasians have been neglected as a meaningful category of people in research despite an extensive history of Black and Asian interactions within the United States and abroad Washington explains that even though Americans have mixed in every way possible racial mixing is framed in certain ways which almost always seem to involve Whiteness Unsurprisingly media discourses about Blasians mostly conform to usual scripts already created reproduced and familiar to audiences about monoracial Blacks and Asians In the first book on this subject Washington regards Blasians as belonging to more than one community given their multiple histories and experiences Moving beyond dominant rhetoric she does not harp on defining or categorizing mixed race but instead recognizes the multiplicities of Blasians and the process by which they obtain meaning Washington uses celebrities including Kimora Lee Dwayne Johnson Hines Ward and Tiger Woods to highlight how they challenge and destabilize current racial debate create spaces for themselves and change the narratives that frame

multiracial people Finally Washington asserts Blasians as evidence not only for the fluidity of identities but also for the limitations of reductive racial binaries

Contemporary Asian America (third Edition) Min Zhou,Anthony Christian Ocampo,2016-04-19 The third edition of the foundational volume in Asian American studies Who are Asian Americans Moving beyond popular stereotypes of the model minority or forever foreigner most Americans know surprisingly little of the nation s fastest growing minority population Since the 1960s when different Asian immigrant groups came together under the Asian American umbrella they have tirelessly carved out their presence in the labor market education politics and pop culture Many times they have done so in the face of racism discrimination sexism homophobia and socioeconomic disadvantage Today contemporary Asian America has emerged as an incredibly diverse population with each segment of the community facing its unique challenges When Contemporary Asian America was first published in 2000 it exposed its readers to the formation and development of Asian American studies as an academic field of study from its inception as part of the ethnic consciousness movement of the 1960s to the systematic inquiry into more contemporary theoretical and practical issues facing Asian America at the century s end It was the first volume to integrate a broad range of interdisciplinary research and approaches from a social science perspective to assess the effects of immigration community development and socialization on Asian American communities This updated third edition discusses the impact of September 11 on Asian American identity and citizenship the continued influence of globalization on past and present waves of immigration and the intersection of race gender sexuality and class on the experiences of Asian immigrants and their children The volume also provides study questions and recommended supplementary readings and documentary films This critical text offers a broad overview of Asian American studies and the current state of Asian America

Reginald Daniel,2004 Racial Thinking in the United States is a comprehensive reassessment of the ideas that Americans have had about race This useful book draws on the skills and

perspectives of nine scholars from the fields of history sociology theology American studies and ethnic studies In thirteen carefully crafted essays they tell the history of the American system of racial domination and of twentieth century challenges to that racial hierarchy from monoracial movements to the multiracial movement This collection begins with an introduction to how Americans have thought about race ethnicity and colonialism The first section of the book describes the founding of racial thinking in the United States along the racial binary of Black and White and compares that system to the quite different system that developed in Jamaica Section two describes anomalies in the racial binary such as the experiences of people of mixed race and of states such as Texas California and Hawaii where large groups of non Black and White racial groups co exist Part three analyzes five monoracial challenges to racial hierarchy the Civil Rights and Black Power movements the Chicana o movement the Asian Ame

Beyond Lift Every Voice and Sing Paula Marie Seniors,2009 Paula Marie Seniors s *Beyond Lift Every Voice and Sing* is an engaging and well researched book that explores the realities of African American life and history as refracted through the musical theater productions of one of the most prolific black song writing teams of the early twentieth century James Weldon Johnson J Rosamond Johnson and Bob Cole combined conservative and progressive ideas in a complex and historically specific strategy for overcoming racism and its effects In *Shoo Fly Regiment* 1906 1908 and *The Red Moon* 1908 1910 theater uplift and politics collided as the team tried to communicate a politics of uplift racial pride gender equality and interethnic coalitions The overarching question of this study is how roles and representations in black musical theater both reflected and challenged the dominant social order While some scholars dismiss the team as conformists Seniors s contention is that they used the very tools of hegemony to make progressive political statements and to create a distinctly black theater informed by black politics history and culture These men were writers musicians actors and vaudevillians who strove to change the perception of African Americans on stage from one of minstrelsy buffoonery to one of dignity and professionalism *Hispanic Journal of Behavioral Sciences* ,2006-11

Guevarra, Jr.,2012-05-09 *Becoming Mexipino* is a social historical interpretation of two ethnic groups one Mexican the other Filipino whose paths led both groups to San Diego California Rudy Guevarra traces the earliest interactions of both groups with Spanish colonialism to illustrate how these historical ties and cultural bonds laid the foundation for what would become close interethnic relationships and communities in twentieth century San Diego as well as in other locales throughout California and the Pacific West Coast Through racially restrictive covenants and other forms of discrimination both groups regardless of their differences were confined to segregated living spaces along with African Americans other Asian groups

and a few European immigrant clusters Within these urban multiracial spaces Mexicans and Filipinos coalesced to build a world of their own through family and kin networks shared cultural practices social organizations and music and other forms of entertainment They occupied the same living spaces attended the same Catholic churches and worked together creating labor cultures that reinforced their ties often fostering marriages Mexipino children living simultaneously in two cultures have forged a new identity for themselves Their lives are the lens through which these two communities are examined revealing the ways in which Mexicans and Filipinos interacted over generations to produce this distinct and instructive multiethnic experience Using archival sources oral histories newspapers and personal collections and photographs Guevarra defines the niche that this particular group carved out for itself
