being the way colleges used to be beautiful well maintained buildings and grounds caring capable faculty administrators who
manage frugally and compassionately a bright energetic president willing to dedicate his life to assuring a solid future for the
institution and students who study hard and work hard to serve those in need Still the college struggles to maintain what it
has built and to increase its endowment small by comparison to many private institutions at the same time it continues to
hold tuition low and provide funding to students who even with Pell grants need extra help to go to and stay in college How
the college is managing to build a sustainable financial base is described in chapters focusing on the kinds of students who
attend the faculty who teach the administrators who oversee the multiple programs that support the students as well as
design new courses and new ways of teaching the trustees who guide the college and the president who has stayed long
enough to see many of his dreams for the college realized to shape new dreams and to raise the funding that makes those
dreams realities The college still struggles in many ways but its struggles are far less than they would be without the lessons
the institution has learned and is offering to other small private colleges facing similar difficult circumstances With the many

stories about the sad state of higher education today this book contradicts those stories with its description of how merging the values of the past with the information and strategies available today can enable a small college in a region of poverty and with a population of students with limited financial resources to rise above those threats and limitations to become a model for the future of such institutions **The fortunes of Nigel; Peveril of the peak; Quentin Durward; St Ronan's Well; Redgauntlet; The betrothed** Walter Scott,1877 **The Publishers Weekly** ,1995 (The Waverley novels).
