Dinah The Dog With The Difference:

Dinah, the Dog with a Difference Esta De Fossard, 1979 *Tommy, the Timid Foal* Esta De Fossard, 1985 Easy to read Animal Adventures For beginning readers *Australian Children's Books: 1973-1988* Marcie Muir, Kerry White, 1992 Volume two of a reference work listing all children's books by Australians This volume covers the period from 1973 to 1988 Entries provide physical descriptions dates publishers illustrations awards received and in some cases remarks on the content Entries are arranged by author Title and illustrator indexes are included **What a Difference a Day Makes** Steve Bergsman, 2023-10-30 In *What a Difference a Day Makes Women Who Conquered 1950s Music* Steve Bergsman highlights the Black female artists of the 1950s a time that predated the chart topping girl groups of the early 1960s Many of the singers of this era became wildly famous and respected and even made it into the Rock n Roll Hall of Fame However there were many others such as Margie Day Helen Humes Nellie Lutcher Jewel King and Savannah Churchill who made one or two great records in the 1950s and then disappeared from the scene The era featured former jazz and blues singers who first came to prominence in the 1940s and others who pioneered early forms of rock n roll In a companion volume Bergsman has written the history of white women singers of the same era Although song styles were parallel the careers of Black and white female singers of the period ran in very different directions as the decade progressed The songs of African American vocalists like Dinah Washington and Etta James were segregated to the R B charts or covered by pop singers in the early and mid 1950s but burst into prominence in the last part of the decade and well into the 1960s White singers on the other hand excelled in the early 1950s but saw their careers decline with the advent of rock music In this volume Bergsman takes an encyclopedic look at both the renowned and the sadly faded stars of the 1950s placing them and their music back in the spotlight **Fiction, Folklore, Fantasy & Poetry for Children, 1876-1985: Titles, awards**, 1986 *Fictions of Certitude* John S. Haller, 2020-03-24 The search for belief and meaning among nineteenth century intellectuals The nineteenth century's explosion of scientific theories and new technologies undermined many deep seated beliefs that had long formed the basis of Western society making it impossible for many to retain the unconditional faith of their forebears A myriad of discoveries including Faraday's electromagnetic induction Joule's law of conservation of energy Pasteur's germ theory Darwin's and Wallace's theories of evolution by natural selection and Planck's work on quantum theory shattered conventional understandings of the world that had been dictated by traditional religious teachings and philosophical systems for centuries *Fictions of Certitude Science Faith and the Search for Meaning 1840-1920* investigates the fin de siècle search for truth and meaning in a world that had been radically transformed John S Haller Jr examines the moral and philosophical journeys of nine European and American intellectuals who sought deeper understanding amid such paradigmatic upheaval Auguste Comte John Henry Newman Herbert Spencer Alfred Russel Wallace Thomas Henry Huxley John Fiske William James Lester Frank Ward and Paul Carus all belonged to an age in which one world was passing while another world that was both

astounding and threatening was rising to take its place For Haller what makes the work of these nine thinkers worthy of examination is how they strove in different ways to find certitude and belief in the face of an epochal sea change Some found ways to reconceptualize a world in which God and nature coexist For others the challenge was to discern meaning in a world in which no higher power or purpose can be found As explained by D H Meyer The later Victorians were perhaps the last generation among English speaking intellectuals able to believe that man was capable of understanding his universe just as they were the first generation collectively to suspect that he never would
