 reconstructions in the BBC series Walking with Dinosaurs in America where they appear as warm blooded and feathered  
 attending their young and brooding their nests This transformation in popular culture is based on excavations at one  
 profoundly important site in China Liaoning Here told by the leading US researcher who has been to the site Mark Norrell  
 the Chair and Curator Division of Paleontology American Museum of Natural History is the definitive story of that discovery  
 Unearthing The Dragon is also a highly personalized account of being in a foreign land with a very different history of science
