Directions In Sociolinguistics The Ethnography Of Communication:

Directions in Sociolinguistics John Joseph Gumperz, 1972 Non Aboriginal material Directions in Sociolinguistics John Gumperz, Dell Hymes, 1986 Directions in Sociolinguistics is a now classic collection of pioneering essays by leading sociolinguists. It is published here for the first time in paperback and incorporates an extensive new bibliography. The book proceeds from the assumption that we may learn from language as interactional behaviour illustrating both advances in theoretical insights and changes in research interests. Taking a speaker's communicative competence as a social as well as grammatical fact, this volume is an invaluable compendium of articles by some of the most eminent researchers in Sociolinguistics and in the sociology and anthropology of language. *Research Methods in Language and Education* Nancy H. Hornberger, David Corson, 1997 This volume seeks to enable language and education practitioners and researchers to get a sense of the range of issues being pursued in language and education research and the array of methods employed to do so. It focuses on language and education in relation to society, variation, culture and interaction. Its unity of purpose and outlook with regard to the central role of language as both vehicle and mediator of educational processes and to the need for continued and deepening research into the limits and possibilities that implies is most impressive. Language and Interaction Susan L. Eerdmans, Carlo L. Prevignano, Paul J. Thibault, 2003-02-28 This book features a fascinating and extended focal interview with Professor John J. Gumperz who ranges over his long career trajectory and reflects on his scientific achievements and how they relate to the contemporary linguistic scene. In this way the reader is presented with a snapshot introduction to Gumperz's work in a contemporary context. A number of commentaries provide a stimulating and illuminating series of theoretical and applied encounters with Gumperz's work from different perspectives. In so doing they shed new light on Gumperz's seminal contribution to the study of language and interaction. In his Response Essay and in a final discussion Gumperz clarifies his views on many of the topics discussed in the volume as well as sharing with readers his views on some other approaches to language and interaction that are closely aligned to his own. Sociolinguistics, the ethnographic approach to language, language and social interaction, intercultural communication, communicative conventions, contextualization: these are some of the key terms which Professor John J. Gumperz discusses in this wide-ranging and searching interview about his career as an anthropological linguist and sociolinguist interested in cultural diversity and intercultural communication. John J. Gumperz, Professor Emeritus of Anthropology, University of California, Berkeley, is one of the founders of Sociolinguistics whose early work on speech communities and on the relationship of linguistic to social boundaries helped lay the basis for much current work in the field. Since the 1970s he has concentrated on a theory and methods of discourse analysis that can account for the intrinsic diversity of today's communicative environments. His publications include *Language in Social Groups* 1962, *Ethnography of Communication* 1964 and *Directions in Sociolinguistics* 1972, 2002 (both coedited with Dell Hymes), *Discourse Strategies* 1982, *Language and Social Identity* 1982 and *Rethinking*
