economic and financial activity It should prove useful to all those in industry and finance who wish to understand and analyze the trends and changes in the modern dynamic economy Victor Zarnowitz Professor Emeritus of Economics and Finance University of Chicago Leading Economic Indicators Kajal Lahiri, Geoffrey H. Moore, 1991 Developed fifty years ago by the National Bureau of Economic Research the analytic methods of business cycles and economic indicators enable economists to forecast economic trends by examining the repetitive sequences that occur in business cycles The methodology has proven to be an inexpensive and useful tool that is now used extensively throughout the world In recent years however significant new developments have emerged in the field of business cycles and economic indicators This volume contains twenty two articles by international experts who are working with new and innovative approaches to indicator research They cover advances in three broad areas of research the use of new developments in economic theory and time series analysis to rationalise existing systems of indicators more appropriate methods to evaluate the forecasting records of leading indicators particularly of turning point probability and the development of new indicators *Handbook of Survey- Based Business Cycle Analysis* Georg Goldrian, 2007 This Handbook aims to provide an overview of regular survey activities as well as to show how survey results can be used scientifically in the context of business cycle analysis and forecasting Examples of various business surveys are described in detail starting with their objectives the questions they pose how they are weighted and extrapolated and the representativeness of their results A detailed scientific examination of the explanatory value of the data is also made in order to demonstrate their potential usefulness The Handbook has three parts firstly it presents the importance of business surveys for empirical research Secondly selected surveys are introduced in detail such as the Ifo Business Survey and the Ifo Investment Survey and thirdly a broad spectrum of studies on the consequence of the survey results is presented The significance of the surveys applies equally to business cycle analysis and to forecasting An array of modern methods of time series analysis and econometric model construction is used in these investigations This book will be of interest to an audience comprising members of institutions conducting business surveys scientists using survey results to analyse and forecast business cycles and students of empirical economic research **Corporate Finance, Governance and Business Cycles** R. Krainer, 2003-01-15 Corporate Finance Governance and Business Cycles describes a model of how a financial system coordinates and shapes certain stylised facts of business cycles The model is based on a conflict of interest between more risk averse bondholders and less risk averse stockholders whose risk aversion changes over time The corporate governance resolution of this conflict assigns the operating decisions of the firm to stockholders and the financing decisions to bondholders Financing decisions are then linked to operating decisions in a way that coalesces the welfare of bondholders and stockholders over the business cycle Evidence from the nonfinancial business sector of the G 7 countries does not reject the predictions of the model *Classical Business Cycles for G7 and European Countries* Michael J. Artis, Zenon G. Kontolemis, Denise R. Osborn, 1995 **Business Cycle Theory** Günter Gabisch, Hans-Walter Lorenz, 1987 **Cycles** , 1981
