Business Decisions with Computers Daniel Schutzer,1991   Computers, Information, and Business Decision-making, Maurice Henry Schwartz,1965   Computer Decisions ,1982   **Official Gazette of the United States Patent and Trademark Office** ,2001   *Fundamental Accounting Principles* WILD,2017-09-11 Fundamental Accounting Principles   *Values, Work, Education* ,2022-06-13 This book is a collection of reflections and empirical studies which examine the many facets of the meanings of work The authors are significant scholars in fields of study ranging from ethics to sociology The book is a text which aims at balancing the academic with the practical and so the chapters often reflect the tensions implicit in such a venture The reader will find in these pages historical philosophical educational religious entrepreneurial and many other points of view which combine to emerge as a text which is both encyclopedic in information yet engaging and lively in style The reader will be able to understand how the meanings of work have changed over the centuries varying according to historical place and point of view At the same time the diligent reader will observe the centrality that work has in the lives of people both practically and in terms of life quests Work has previously been defined as an activity that produces something of value for other people This definition does not even begin to include the information about work that is presented in this book The reader will feel a invigorating sense of worth from this book   *The Corporate Game* David F. Rye,1994   Behind Your Boss's Door Richard E. McDowell,2010-02 Understanding Today s Leadership While Developing Your Own Anyone who desires to become a leader a manager or team builder however you wish to term it has a plethora of resources at his disposal He can choose from hundreds of colleges and universities to study at there are seminars and conferences given by professional speakers and he can also turn to his bosses and peers However he ll soon find himself buried in more information and theories and secrets than he knows what to do with and much of it conflicting So what is he to do The truth is that true leadership comes from within and what an aspiring leader or an established leader desiring to increase his successes really needs is to push aside all the excess of unnecessary clutter and get to the heart of the matter What is the essence of true leadership Is it the special techniques a leader uses Is it a power nap Is it psychological tricks a leader uses while gazing into a mirror in the morning Does he need twenty five laws of leadership and if so why not forty So much information abounds on this subject some of it nonsense and some of it legitimate that I felt it was time that a book was written that kept things real and explained the realities of true leadership while not overcomplicating things Herein you will find just that It s time to get back to the bread and butter of leadership
