Business Law Palgrave Law Masters S:

Business Law Stephen Judge, 2009 **Fundamentals of Business Law** Robert Elwin Stone, 1950 Transparency of Stock Corporations in Europe Vassilios Tountopoulos, Rüdiger Veil, 2019-12-12 This edited collection explores transparency as a key regulatory strategy in European business law. It examines the rationales, limitations, and further perspectives on transparency that have emerged in various areas of European law including corporate law, capital markets law, and accounting law, as well as other areas of law relevant for European listed stock corporations. This book presents a clear and accurate picture of the recent reforms in the European transparency regime. In doing so, it endorses a multi-dimensional notion of transparency, highlighting the need for careful consideration and contextualisation of the transparency phenomenon. In addition, the book considers relevant enforcement mechanisms and discusses the implications of disparate enforcement concepts in European law from both the private and public law perspectives. Written by a team of distinguished contributors, the collection offers a comprehensive analysis of the European transparency regime by discussing the fundamentals of transparency, the role of disclosure in European business law, and related enforcement questions. **Enforcing Shareholders' Duties** Hanne S Birkmose, Konstantinos Sergakis, A heavily debated topic, the evolution of shareholders' duties risks the transformation of the very concept of shareholder primacy, crucially associated with shareholder rights. Offering a distinctive and comprehensive examination of both current and forthcoming enforcement mechanisms in the area of shareholder duties, this timely book provides an exhaustive analysis of the many issues related to these mechanisms and considers the ongoing challenges surrounding their implementation. **Palgrave's Dictionary of Political Economy** Robert Harry Inglis Palgrave, Henry Higgs, 1923 **Corruption Proofing in Africa** Dan Kuwali, 2024-03-11 This book outlines evidence-based and data-driven strategies for combating grand corruption in Africa. Although the causes of corruption vary from country to country, this book suggests that corruption in Africa is often a direct consequence of poorly conceived legislation, policies, and institutional loopholes. The authors in this solution-oriented book converge in arguing that effective strategies to combat corruption, corruption proofing, should integrate an independent enforcement system, vigilant civil society, vibrant media, and political leadership. Utilising empirical evidence and a systems thinking approach, the contributors also uncover root causes of corruption and identify high-leverage interventions to prevent abuse of entrusted power for personal gain. The book recommends an integrated proactive strategy that includes top-down, bottom-up, and multi-stakeholder approaches in the implementation of anti-corruption legislation and policies. Bringing together multidisciplinary and transdisciplinary research, the chapters in this volume include case studies from selected countries on the continent, including Cameroon, Kenya, Malawi, Namibia, Uganda, and Zimbabwe. Providing readers with a range of effective and functional initiatives in combating corruption in Africa, this book will be of interest to students and researchers of corruption, governance, ethics, peace, and security, development, and African studies, as well as policymakers, practitioners, development
