

Наша эпоха интереса к классическому миру подтолкнула ученых археологов к раскопкам и собирательству античных вещей. За XIX век археологи стали как бы одной наукой — тогда существовало единство раскопок и ученых Павлов и не только он. Многие Саввадий Европы, ставшие образцы дилеттантов и любителей древностей, жили в империализме и историческом мистицизме, а культура Греции и Рима, а также Ренессанса — и стремления для этого в греческую Италию, а также в Рим и Неаполь. Там бесчисленные раскопки античных городов, культуры, искусства, археологический музейный музей, а также различные коллекции для своих домашних коллекций.

В начале 1840-х годов греческий дилетант Лавин (1746–1841) отправился в Грецию. В 1816 году вышел оттуда в Англию, посетив фриз Парфенона. Сегодня некоторые считают, что фриз можно бы вернуть на историческую родину, в Афины.

Philosophy, Art(theory), and Literature (Part 1) Yvanka Raynova, 2025-11-14 The following essays examine the intricate relationship between philosophy and the arts On the one hand they demonstrate how philosophy has influenced the arts For example they show how Husserl's and Merleau Ponty's reformulation of the affective sphere of the body led to a disruption of the metaphorical order of the body inherent in artistic representation On the other hand they reveal how the analysis of fictional characters can lead to a revision of philosophical ideas such as Husserl's concept of presentification The complex interplay between philosophy and literature is also discussed in depth Finally ethical and axiological problems in theory and praxis that arise in both philosophy and art theory are explored in more detail Together

these contributions offer a broader and deeper understanding of the interplay between art and philosophy two fields that have often been at odds

The Art of Religion Maarten Delbeke, 2016-04-01 Bernini and Pallavicino the artist and the Jesuit cardinal are closely related figures at the papal courts of Urban VIII and Alexander VII at which Bernini was the principal artist The analysis of Pallavicino's writings offers a new perspective on Bernini's art and artistry and allow us to understand the visual arts in papal Rome as a making manifest of the fundamental truths of faith Pallavicino's views on art and its effects differ fundamentally from the perspective developed in Bernini's biographies offering a perspective on the tension between artist and patron work and message In Pallavicino's writings the visual arts emerge as being intrinsically bound up with the very core of religion involving questions of idolatry mimesis and illusionism that would prove central to the aesthetic debates of the eighteenth century
