The statues are made of light-colored stone and are partially illuminated by warm, golden light, creating a dramatic and ancient atmosphere. But Not Philosophy

Stephen D. Dowden, Thomas P. Quinn

But Not Philosophy:

But Not Philosophy George Anastaplo, 2001-12-29 George Anastaplo has written brilliantly and persuasively about ancient and modern Western political philosophy and literature and about American Constitutional history and law With his latest book Anastaplo turns away from his areas of admitted expertise to offer in his own words the explorations of a determined amateur with some practice in reading The essays contained in this volume were originally conceived as a set of seminars each culminating in a public lecture which in turn formed the basis for contributions to Encyclopedia Britannica's 1961-1998 series The Great Ideas Today Gathered in this one volume But Not Philosophy provides useful and thought provoking introductions to seven major schools of non Western thought Mesopotamian ancient African Hindu Confucian Buddhist Islamic and North American Indian Anastaplo studies ancient literary epics and legal codes and examines religious traditions and systems of thought providing detailed references to authoritative histories and commentators Movingly and thoughtfully written the essays encourage readers to bring their own Western traditions under similar scrutiny to study our own grasp of the divine reliance upon nature and causality and dependence on philosophy to learn about what we are from what we are not

A Conceptual-analytic Study of Classical Indian Philosophy of Morals Rajendra Prasad, 2008 Using reconstructive ideas available in classical Indian original works this book makes a departure in the style of modern writings on Indian moral philosophy It presents Indian ethics in an objective secular and wherever necessary critical manner as a systematic down to earth philosophical account of moral values virtues rights and obligations It thereby refutes the claim that Indian philosophy has no ethics as well as the counter claim that it transcends ethics It demonstrates that moral living proves that the individual his society and the world are really real and not only taken to be real for behavioral purposes as the Advaitins hold the self is amoral being a non agent moksha is not a moral value and the Karmic theory because of involving belief in rebirth does not guarantee that the doer of an action is also the experiencer of its results contrary to what is commonly held and Indian ethics can sustain itself even if such notions are dropped Rajendra Prasad calls Indian ethics organismic because along with ethical concerns it also covers issues related to professions politics administration sex environment etc Therefore in one format it is theoretical and applied normative and metaethical humanistic and non humanistic etc of course within the limits of the then cognitive enquiry
