Old Stories Retold Andrew G. Stuckey, 2010-04-30 *Old Stories Retold* explores the ways modern Chinese narratives dramatize and embody the historical sense that links them to the past and to the Chinese literary tradition Largely guided by Walter Benjamin's discussions of history G Andrew Stuckey looks at the ways Chinese narrative engages a historical process that pieces together fragments of the past into new configurations to better serve present needs By examining intertextual connections between separate texts Stuckey seeks to discover traces of an original whether it be thought of as the past history or tradition when it has been rewritten in modern and contemporary Chinese fiction *Old Stories Retold* shows how the articulation of the past into new historical configurations disrupts accepted understandings of the past and as such can be intentionally pitted against modernist historical knowledge to resist the modernist ends that this knowledge is mobilized to achieve

Currere and Legacy in the Context of Family Business Samuel Chen,2023-03-28 This book presents a new conceptualization of the idea of legacy in a family business setting as an educational experience of teaching and learning between generations Using the lived experience of the author it combines autoethnography with a discussion on the influence of Chinese culture on family business and expectations placed on the eldest son as well as Bill Pinar s model of Currere to investigate the processes around intergenerational learning The author argues that legacy is the process of journeying to full personhood and the results of connected and collective aspirations shifting the focus from succession that is often marked by silence and power control The author s approach to business as a field has transformed its strong instrumental approach into an existential orientation with self discovery and self creation as an ongoing process Providing the new and innovative beginnings of a theoretical curriculum that could foster legacy processes and taking a unique and interdisciplinary approach to looking at family business and legacy this book will be relevant to scholars and researcher of both education and business studies
