Butterfly Kisses is based on a true story The characters are also based on real life people but names and circumstances have been changed for the obvious reasons Healing often needs a process of dredging from the bottom of the pond before the water comes clean The author hoped to achieve this for himself in writing of these strange and then maybe not so strange happenings It is also a verbalization of the pain that many people both men and women feel for such a long time after the end of a close relationship This is particularly so if in retrospect it has been one that never should have ended We all learn as we go and as we grow Sometimes this is for good and some times not so good but survival in the aftermath becomes the paramount issue Nearly everyone has a deep seated desire for life to contain some exciting and mystical journey Life must have an element of passion about it or it is just an existence The author grew up in a strict and confining religious atmosphere that s basis was that life would begin at a later point in time as many religions believe The belief that here and now was only a bus stop Put those chains around the spirit of someone who believes in color and music and passion and something will crack one day as it often does To exist with any sense of decency one has to stand in their own truth something the author so strongly believed in but knowing what that truth is can be a difficult thing to confront
