Buying And Selling Power Anthropological Reflections On Prostitution In Spain:

Buying And Selling Power Angie Hart,2019-03-13 This book explores the complex identities and connection between clients and prostitutes living in Spain and life beyond prostitution It reflects on the relationship between the anthropologist and that of his her subjects and informants Paying for Pleasure Teela Sanders,2013-05-13 This book offers insights into why engagement in commercial sex is prolific as sexual culture is transformed in late modernity Drawing on original empirical data with men who buy sex the book explores not only why men buy sex but also the sociological and psychological processes that men encounter in order to enter an assumed deviant sexual behaviour as part of their everyday lives

Spanishness in the Spanish Novel and Cinema of the 20th - 21st Century Cristina Sánchez-Conejero,2009-10-02 Spanishness in the Spanish Novel and Cinema of the 20th 21st Century is an exploration of the general concept of Spanishness as all things related to Spain specifically as the multiple meanings of Spanishness and the different ways of being Spanish are depicted in 20th 21st century literary and cinematic fiction of Spain This book also represents a call for a re evaluation of what being Spanish means not just in post Franco Spain but also in the Spain of the new millennium The reader will find treatments of some of the crucial themes in Spanish culture such as immigration nationalisms and affiliation with the European Union as well as many others of contemporary relevance such as time memory and women studies that defy exclusivist and clear cut single notions of Spanishness These explorations will help contextualize what it means to be Spanish in present day Spain and in the light of globalization while also dissipating stereotypical notions of Spain and Spanishness **Sex Work** Teela Sanders,2013-01-11 This is a richly detailed account of the way the sex industry works and one of the few empirical studies that investigates the off street industry in Britain The book seeks to advance a greater knowledge of the social organisation of the sex industry by uncovering the day to day activities of women involved in the indoor markets What types of occupational risks do women experience in work of this kind How do these hazards affect their personal lives A key concern throughout the book is to assess whether women are passive victims of the circumstances of prostitution or whether they understand and calculate their responses to danger Drawing upon both sociological and criminological theories and on detailed research in the city of Birmingham the author addresses these questions by estimating the rationality of those responses and by providing a measure of how women make sense of different risks Sex Work a risky business describes how women create complex psychological and emotional techniques to maintain their sanity while selling sex and goes on to argue that the indoor sex markets in Britain have a distinct occupational culture with a set of social norms code of conduct and moral hierarchies that make it a high regulated workplace despite its illicit and sometimes illegal nature Sex Trafficking, Human Rights, and Social Justice Tiantian Zheng,2010-09-13 This volume explores the life experiences agency and human rights of trafficked women in order to shed light on the complicated processes in which anti trafficking human rights and social justice are intersected **Sex at the Margins** Laura María Agustín,2007-05-01 This

groundbreaking book explodes several myths that selling sex is completely different from any other kind of work that migrants who sell sex are passive victims and that the multitude of people out to save them are without self interest Laura Agustín makes a passionate case against these stereotypes arguing that the label trafficked does not accurately describe migrants lives and that the rescue industry disempowers them Based on extensive research amongst migrants who sell sex and social helpers Sex at the Margins provides a radically different analysis Frequently says Agustín migrants make rational choices to travel and work in the sex industry Although they are treated like a marginalised group they form part of the dynamic global economy Both powerful and controversial this book is essential reading for all those who want to understand the increasingly important relationship between sex markets migration and the desire for social justice Journal of the Anthropological Society of Oxford Anthropological Society of Oxford,1998 **Economies of Desire** Elizabeth
