**Buying the American Mind** Stephanie Epstein, 1991 The Center examined Japan's quest for U.S. ideas in science economic policy and the schools and found among other things that taxpayer supported high tech university laboratory research is being sold away for a song to Japanese and other non U.S. corporations *Buy American* Dana Frank, 2000-04-07 With the election of Donald Trump economic nationalism has re-emerged as a patriotic rallying cry But are imports and foreigners really to blame for the disappearance of good jobs in the United States Tracing the history and politics of economic nationalism from the American Revolution to the present historian Dana Frank investigates the long history of Buy American campaigns and their complexities This entertaining story is full of surprises including misguided heroes chilling racism and more than a few charlatans Frank helps reframe the debate between free trade on the one hand and nationalism on the other to suggest alternative strategies that would serve the needs of working Americans instead of the interests of corporations and economic elites and that don't cast foreigners or immigrants as our enemies Implementation and Enforcement of the Buy America Provisions of the Urban Mass Transportation Administration, the Federal Highway Administration, and the U.S. Army Corps of Engineers United States. Congress. House. Committee on Public Works and Transportation. Subcommittee on Investigations and Oversight, 1990 *Convergence Culture* Henry Jenkins, 2006-08-01 Winner of the 2007 Society for Cinema and Media Studies Katherine Singer Kovacs Book Award 2007 Choice Outstanding Academic Title A classic study on the dynamic between an individual and different media channels *Convergence Culture* maps a new territory where old and new media intersect where grassroots and corporate media collide where the power of the media producer and the power of the consumer interact in unpredictable ways Henry Jenkins one of America's most respected media analysts delves beneath the new media hype to uncover the important cultural transformations that are taking place as media converge He takes us into the secret world of *Survivor Spoilers* where avid internet users pool their knowledge to unearth the show's secrets before they are revealed on the air He introduces us to young Harry Potter fans who are writing their own Hogwarts tales while executives at Warner Brothers struggle for control of their franchise He shows us how *The Matrix* has pushed transmedia storytelling to new levels creating a fictional world where consumers track down bits of the story across multiple media channels Jenkins argues that struggles over convergence will redefine the face of American popular culture Industry leaders see opportunities to direct content across many channels to increase revenue and broaden markets At the same time consumers envision a liberated public sphere free of network controls in a decentralized media environment Sometimes corporate and grassroots efforts reinforce each other creating closer more rewarding relations between media producers and consumers Sometimes these two forces are at war Jenkins provides a riveting introduction to the world where every story gets told and every brand gets sold across multiple media platforms He explains the cultural shift that is occurring as consumers fight for control across disparate channels changing the way we do
