Arthur James Balfour, Balfour

By Their Creator How A Belief In A Creator Shapes The American Conscience:

By Their Creator Philip J Eveland, 2000-12-29 Why did the Plymouth colonists succeed and the Jamestown colonists fail in those important early years of settlement How did the Framers of the Constitution deal with slavery What was the principle force behind those feelings What drove the debate against slavery in antebellum America To what authority did the civil rights of the 1950s and 1960s leaders appeal for equality What is the ugly truth pro abortionists don't want us to know Did man really evolve from ape like creatures Is the Earth millions of years old Is the Bible reliable The answers to each of these questions establishes your moral identity defining how you view yourself and others How our nation's governors legislators presidents and judges answer these questions and how it uses these fundamental principles in establishing our laws lays the foundation of our national moral conscience It is that moral conscience that has consistently driven this nation forward in achieving justice and equality Today though that moral conscience is being corrupted by a sinister ideology A principle that is utterly antithetical to the one that has compelled our leaders to the highest moral standards This book looks at that original principle and how it guided our leaders as they steered this nation safely through the rough waters of change It looks also at how that great principle has been undermined leaving us adrift in a turbulent sea of crisis Mostly though it seeks to point us back to that great principle as the source of strength courage and honor character traits sadly missing from many of today's leaders in American politics

Distorted Landscape Philip J. Eveland, 2013-04-18 It is an incontrovertible fact The establishment media are biased toward the political Left America's newsrooms are packed with Democratic Party operatives who manufacture false narratives to push a progressive agenda Journalists editors and producers live and work inside echo chambers of Leftism Many of them are completely ignorant about the values that most Americans treasure Philip J Eveland employs his years of experience as an intelligence analyst to examine the false narratives crafted by highly skilled propagandists in establishment media echo chambers of America's newsrooms and editorial boards

The 25 Issues that Shape American Politics Michael Kryzanek, Ann Karreth, 2017-10-02 This book is organized to examine the major subjects taught in American politics through the lens of twenty five hot button issues affecting American politics and policy today These key issues reflect the ideas principles concerns fears morals and hopes of the American people The authors argue that these issues are the heart and soul of the American political system serving as the basis for the disagreements that drive citizens public servants and elected officials into action Features of this Innovative Text Examines 25 issues in light of the 2016 presidential election and beyond Up to date chapters reflect important developments in the arenas of money and politics immigration health care race relations and civil rights gun control and gay rights in particular Includes international coverage with recent and ongoing events surrounding Iran Syria Israel and Palestine and China A chapter on Russia puts recent developments in Syria Ukraine Crimea and the near abroad in context with US foreign policy
