Business Government And Sustainable Development:

Business, Government and the SDGs Mahmoud Mohieldin, Sameh Wahba, Maria Alejandra Gonzalez-Perez, Miral Shehata, 2022-11-01 This book seeks to revise and challenge the roles and traditional realms of influence that national and local governments and businesses at a critical juncture in terms of achieving sustainable development faces when tackling the dual challenges of climate change and post COVID recovery Using the broader lens of the 2030 UN Sustainable Development Goals SDGs to assess the roles and responsibilities of each of these stakeholders and their relationships the book offers policy economic arguments case studies and examples to argue that neither national or local governments nor companies could afford to deviate from the SDGs in the recovery from the current crisis nor that the imperative of bold climate action should detract from the broader focus on sustainability The analysis frames the debate of how a balance between people planet and profits can be achieved and how nations regions and cities and businesses with their representative organizations can achieve a sustainable recovery from the current global crisis and contribute to climate smart resilient and inclusive development
