Business Impact On Education And Child Development Reform:

Business Impact on Education and Child Development Reform P. Michael Timpane, Laurie Miller McNeill, 1991 This research report provides a critical look at the involvement of corporate America in the resurgence of public education and its impact on the reform movement particularly on early childhood issues The history of the business education relationship in this century is the topic of Chapter 1 Chapter 2 describes patterns of involvement from helping hand relationships to programmatic initiatives to compacts and collaborative efforts and finally to policy change with the helping hand model being the most popular and widespread Chapter 3 assesses results at the end of the recent decade of renewed corporate interest in education and child development and finds that although there is much and varied activity business participation has not yet been fully adequate to the task because there has been no widespread impact on educational outcomes Chapter 4 addresses the needs of the coming decade and describes the six following goals 1 stay the course 2 promote national dialogue and federal involvement 3 pursue related human service perspectives 4 build the infrastructure of business education partnerships 5 support pertinent research and analysis and 6 review and assess the commitment and performance of businesses A 255 item bibliography is included JB *Commissions, Reports, Reforms, and Educational Policy* Rick Ginsberg, David Plank, 1995-06-28 The editors have collected original papers dealing with the impact of commissions on educational policy and reform This book is a combination of the perspectives of practitioners directly involved with writing or reacting to commission reports and scholars analyzing the significance and impact of educational policy Chapters are written by some of the country's leading authorities on education This book will prove to be a valuable resource for educators administrators political scientists sociologists and others interested in the state of education Includes a foreword by Paul E Peterson of Harvard University **An Education in Politics** Jesse H. Rhodes, 2012-04-21 Since the early 1990s the federal role in education exemplified by the controversial No Child Left Behind Act NCLB has expanded dramatically Yet states and localities have retained a central role in education policy leading to a growing struggle for control over the direction of the nation's schools In *An Education in Politics* Jesse H Rhodes explains the uneven development of federal involvement in education While supporters of expanded federal involvement enjoyed some success in bringing new ideas to the federal policy agenda Rhodes argues they also encountered stiff resistance from proponents of local control Built atop existing decentralized policies new federal reforms raised difficult questions about which level of government bore ultimate responsibility for improving schools Rhodes's argument focuses on the role played by civil rights activists business leaders and education experts in promoting the reforms that would be enacted with federal policies such as NCLB It also underscores the constraints on federal involvement imposed by existing education policies hostile interest groups and above all the nation's federal system Indeed the federal system which left specific policy formation and implementation to the states and localities repeatedly frustrated efforts to effect changes national reforms lost their force as policies passed through

iterations at the state county and municipal levels Ironically state and local resistance only encouraged civil rights activists business leaders and their political allies to advocate even more stringent reforms that imposed heavier burdens on state and local governments Through it all the nation s education system made only incremental steps toward the goal of providing a quality education for every child Resources in Education ,1992 *Encyclopedia of Educational Reform and Dissent* Thomas C. Hunt,James C. Carper,Thomas J. Lasley, II,C. Daniel Raisch,2010-01-12 Educational reform and to a lesser extent educational dissent occupy a prominent place in the annals of U S education Whether based on religious cultural social philosophical or pedagogical grounds they are ever present in our educational history Although some reforms have been presented as a remedy for society s ills most programs were aimed toward practical transformation of the existing system to ensure that each child will have a better opportunity to succeed in U S society Educational reform is a topic rich with ideas rife with controversy and vital in its outcome for school patrons educators and the nation as a whole With nearly 450 entries these two volumes comprise the first reference work to bring together the strands of reform and reformers and dissent and dissenters in one place as a resource for parents policymakers scholars teachers and those studying to enter the teaching profession Key Features Opens with a historical overview of educational reform and dissent and a timeline of key reforms legislation publications and more Examines the reform or dissent related to education found in theories concepts ideas writings research and practice Addresses how reformers and dissenters become significant culture shaping people and change the way we conduct our lives Key Themes Accountability Biographies Concepts and Theories Curriculum and Instruction Diversity Finances and Economics Government Organizations Advisory Organizations Business and Foundations Organizations Curriculum Organizations Government Organizations Professional Organizations Think Tanks Public Policy Religion and Religious Education Reports School Types Special Needs Technology This authoritative work fills a void in the literature in the vast areas of educational reform and dissent making it a must have resource for any academic library Availability in print and electronic formats provides students with convenient easy access wherever they may be **Report on Education of the Disadvantaged** ,1990 **Federalism, Agenda Setting, and the Development of Federal Education Policy, 1965-2001** Paul Manna,2003 *Turning Disadvantaged Youth Into an Economic Development Resource* ,1991 **Encyclopedia of Education: AACSB-Commerce** James W.
