in Ethics in Practice Series Editors Robert A Giacalone Temple University and Carole L Jurkiewicz Louisiana State University  
The purpose of this book is to develop ethical traditions based on Kant Horkheimer and others to extend beyond the level of  
individual behavior to address the social system level in business and public administration It is not enough to try to be good  
or ethical as individuals when it is systemic processes which are fostering unethical behavior Horkheimer s books Eclipse of  
Reason and Critique of Instrumental Reason and his early and now classic essay Materialism and Morality ask for a  
reformation of Kantian ethics The reform is sought because the categorical imperative within the context of an individualism  
capitalism serves to worsen the difference between business ethics and moral philosophy Therefore Horkheimer asks that the  
maxims that would be made universal would be done at the level of people organizing with others This is the level addressed  
in this volume as we seek to change the system that is producing and reproducing unethical behaviors      Public Relations
