Business Taxation Policy And Practice:

OECD Tax Policy Studies Tax Policy Reform and Economic Growth OECD,2010-11-03 This report investigates how tax structures can best be designed to support GDP per capita growth *Business Taxation* ,1986 **Taxation and Tax Policy Issues** Brian L. Yoshov,2007 In 2005 Americans paid about 2 1 trillion in combined federal taxes including income payroll and excise taxes or about 16 8 percent of the Gross Domestic Product GDP These taxes fund the services provided by government As taxpayers we balance the costs of taxes with the benefits of government The goal of tax policy is to design a tax system that produces the desired amount of revenue and balances the minimisation of compliance and efficiency costs with other objectives such as equity transparency and administrability This book examines the detail which is where vested interests do their damage **Theory, Policy, Practice** Suman Nath,Debraj Bhattacharya,2021-09-19 This book explores the meanings and perceptions of development and the dialectics of theory policy and practice It looks at how theory translates into policy and the disconnections in its design and implementation in the Indian context The book focuses on the influence of capitalist globalisation democratisation decentralisation and neoliberal economic reforms on the development discourse in India and how these have challenged the traditional role of the state the meaning of citizenship and public participation Through an analysis of case studies from various parts of the country it bridges the gap between policy prescriptions and practices and unpacks the institutional political and policy led compulsions and incompatibilities which most often remain unreported It also discusses the intersections between policymaking and the politics of class caste and gender and emphasises the role bureaucracy plays in institutional governance The volume includes articles from professionals ranging from academics practitioners and activists It will be of interest to scholars and researchers of public policy development studies South Asian politics and economics as well as policy makers and practitioners in government and civil society

International Taxation and the Extractive Industries Philip Daniel,Michael Keen,Artur Świstak,Victor Thuronyi,2016-09-23 The taxation of extractive industries exploiting oil gas or minerals is usually treated as a sovereign national policy and administration issue This book offers a uniquely comprehensive overview of the theory and practice involved in designing policies on the international aspects of fiscal regimes for these industries with a particular focus on developing and emerging economies International Taxation and the Extractive Industries addresses key topics that are not frequently covered in the literature such as the geo political implications of cross border pipelines and the legal implications of mining contracts and regional financial obligations The contributors all of whom are leading researchers with experience of working with governments and companies on these issues present an authoritative collection of chapters The volume reviews international tax rules covering both developments in the G20 OECD project on Base Erosion and Profit Shifting and more radical proposals identifying core challenges in the extractives sector This book should become a core resource for both scholars and practitioners It will also appeal to those interested in international tax issues more widely and those who study
