Butterflies Of Papua New Guinea

Michael J. Parsons

Butterflies Of Papua New Guinea:

The Butterflies of Papua New Guinea Michael J. Parsons,1999 New Guinea the world s second largest island lies at the heart of the Australasian center of species diversity The remarkable richness of species in the region is no more spectacularly evident than in its bewildering and beautiful array of butterflies Michael Parsons presents from his 15 years of studying these butterflies a comprehensive description of this butterfly fauna which describes and celebrates their evolution and ecology The butterflies of New Guinea show how a single animal group can diversify to fully exploit the riches of a tropical rainforest environment More than 958 species have been recorded so far and each has developed a unique relationship to its environment foodplants predators and competitors The Butterflies of Papua New Guinea Their Systematics and Biology presents a valuable reference for both the amateur naturalist with an interest in butterflies and the evolutionary ecologist interested in the processes and results of adaptation and speciation The book provides a background of the geography of New Guinea the origins and characteristics of its butterfly fauna and special considerations of New Guinea butterfly ecology and conservation The 820 species recorded from Papua New Guinea and a checklist of the 958 species occurring in Papua New Guinea and Iryan Jaya as a whole are also discussed in detail This book includes line drawings showing detailed identification points color photographs of some 3000 specimens and 200 illustrations detailing aspects of life history and ecology The Butterflies of Papua New Guinea Their Systematics and Biology presents a vital inventory of the present fauna in addition to projections of the discovery of new species and the fortunes of those already in existence there Key Features Examines butterflies as key indicators of environments under pressure Contains color photos of more than 3000 specimens Presents the first comprehensive review of the lives of New Guinea butterflies Includes over 400 color photographs from life

Lepidoptera E. D. Edwards,J. Newland,Australian Biological Resources Study,L. Regan,2001 Certificate of Commendation Winner at the 2001 Whitley Awards Best Zoological Reference Section This very detailed compendium of data on taxonomy and nomenclature of Australian butterflies is another in the Catalogue series produced by the Australian Biological Resources Study a sub program of Environment Australia Expanding on the butterfly section of the earlier Checklist of the Lepidoptera of Australia by Nielsen Edwards Rangsi 1996 This Catalogue contains the fine details of naming and status of types of Australian butterflies and information critical for fixing the scientific names of the species This volume is the Who s Who for the Australian butterfly fauna the very basic information we all need but find so difficult to access and evaluate for ourselves It is introduced by a comprehensive historical and explanatory account of work on Australian butterflies Details are given of all genus and species synonymies applicable to the Australian fauna There are details of the type designations of all 507 available generic names of type data for the 1 004 available species group names and of nomenclatural changes and changes in taxonomic status for most of the 136 valid genera 400 species and 371 subspecies The butterflies have an enormous literature and this catalogue provides a guide to the significant literature of each taxon An

extensive list of larval food plants is also included as well as succinct information on ecology and distribution and a comprehensive bibliography Features   The National Butterflies of Papua New Guinea G.
