operates This book takes a much needed and comprehensive look at the legal and regulatory aspects which affect Islamic finance law and examines the current UK and international banking regulatory frameworks which impact on this sector The book examines the historical genesis of Islamic banking looking at how it has developed in Muslim countries before going on to consider the development of Islamic banking in the UK and the legal position of Islamic banks within English law The book explores company contract and some elements of tax law and traces the impact it has had on the development of Islamic banking in the UK before going on to argue that the current legal and regulatory framework which affects the Islamic banking sector has on certain occasions had an unintended adverse impact on Islamic banking in the UK The book also provides an overview of the Malaysian experience in relation to some of the main legal and regulatory challenges in the context of Islamic banking and finance

Law and Regulation of Mobile Payment Systems Joy Malala, 2017-11-28 Over the last ten years mobile payment systems have revolutionised banking in some countries in Africa In Kenya the introduction of M Pesa a new financial services model has transformed the banking and financial services industry Giving the unbanked majority access to the financial services market it has attracted over 18 million subscribers which is remarkable given that fewer than 4 million people in Kenya have bank accounts This book addresses the legal and regulatory issues arising out of the introduction of M Pesa in Kenya and its drive towards financial inclusion It considers the interaction between regulation and technological innovation with a particular focus on the regulatory tools institutional arrangements and government decisional processes through the examination as a whole of its regulatory capacity This is done with a view to understanding the regulatory capacity of Kenya in addressing the vulnerabilities presented by technological innovation in the financial industry for consumers after financial inclusion It also examines the way that mobile payments have been regulated by criticising the piecemeal approach that the Central Bank of Kenya has taken in addressing the legal and regulatory issues presented by mobile payments The book argues there are significant gaps in the regulatory regime of mobile banking in Kenya
