Remote Work, Internal Marketing and Human Resource Management Teena Mishra, 2024-12-02 Remote working is a developing idea that many organizations are embracing especially in light of COVID 19 and the rise in demand for remote and hybrid roles. As there is no standard model to use for implementation, a number of problems and difficulties develop as popularity increases and hybrid working environments become normalized. This book presents the views, opinions, and reality of remote work and creating an appropriate internal marketing culture in a remote environment. The key topics explored are the significance of remote work, remote work practice, reshaping the work environment, designing remote work models, remote work challenges, remote work facing business organizations, remote work management innovations and technology, the role of motivation and satisfaction in organizational development, employee empowerment in a remote setting, transparency and commitment for sustainable development, and the future of remote work. This research volume will be of value to researchers, academicians, practitioners, and students in the fields of human resource management, organizational studies, and innovation management.

Organisational Behaviour Jack Maxwell Wood, Retha Wiesner, Rachel R. Morrison, Aharon Factor, Tui McKeown, 2024-10-28 The sixth Australasian edition of *Organisational Behaviour: Core Concepts and Applications* stands as an exemplary resource tailored for one semester courses in Organisational Behaviour. With a deliberate focus on succinctness, relevance, and visual presentation, its fourteen chapters are meticulously crafted to captivate rather than inundate students. Throughout the text, a plethora of case studies and real-world instances delve into how organisations across the Australian, New Zealand, and Asian regions navigate pressing contemporary business concerns. These include the imperative of sustainable business practices, grappling with environmental impact and climate change, mitigating the gender pay gap, addressing employee stress, fostering resilience and work-life balance, adapting to the dynamics of millennials and an ageing workforce, enhancing employee retention strategies, and navigating the complexities of globalisation and outsourcing. Additionally, topics such as fostering diversity in the workplace, responding to the workforce transformations precipitated by the COVID 19 pandemic, managing remote teams effectively, honing crisis management skills, and harnessing the potential of emerging technologies, particularly the ascendancy of generative artificial intelligence (AI) tools, are comprehensively explored. This latest edition amplifies its focus on sustainability, entrepreneurial and adaptive leadership, and the pivotal role of technology in catalysing digital transformation within organisational contexts. Complemented by the latest research in the field, this text provides a thorough analysis of contemporary organisational behaviour.
