Stefanie Reissner, Michal Izak, 2025-08-07 This geographically and methodologically diverse volume shines the spotlight on a variety of flexible working practices beyond the predominantly Western perspective and zooms in on the gendered aspects of flexible working The increasing use of flexible work arrangements has decoupled work from time and space making the world of work and home increasingly fluid and challenging to manage The Covid 19 pandemic in particular has been a catalyst for questioning accepted norms of where when and how work takes place This book seeks to explore the impact which this reshaping of traditional modes of working has had on workplace interactions and relationships as well as on managing the boundaries between familial and working lives In this way this collection contributes to a wider dialogue concerning the flexibility challenges encountered by white collar workers which is needed now more than ever This book will be relevant to scholars practitioners and policymakers in the fields of gender studies organizational behavior human resources and labor economics It will be particularly useful for those examining the impact of remote work the future of work organizational culture and the social and economic implications of shifting work practices The chapters in this book were originally published in *Culture and Organization* and are accompanied by an updated Introduction and a new Epilogue **Cold War**

**Workers** Isabel Campbell, 2025-04-15 When Canada sought to protect its borders and aid its allies during the Cold War many people were recruited to build the emerging security state as construction and maintenance workers engineers members of the armed forces medical researchers and research subjects Security work transformed the lives of individuals families and communities in ways that were both predictable and surprising and both beneficial and harmful the militarization and colonization of Indigenous lives and lands was especially disruptive The opening essays of *Cold War Workers* intimately portray the complicated effects of Cold War labour upon Indigenous lives Elmer Sinclair a residential school survivor and member of the Canadian Armed Forces achieved equality with white men through his militarized masculinity His more positive professional experience contrasts with those of Indigenous workers on northern radar lines many of whom lost languages connections to the land and other elements of traditional cultures as they sought new skills and better employment Diverse Indigenous experiences of Cold War security work set the scene for the second set of essays which explore the impact of security preoccupations on marginalized groups the study of extreme isolation through scientific experimentation on human subjects the targeting of gay men with psychiatric labelling to enforce an idealized masculinity and the restriction of gender mobility in the Canadian military and the pushback from servicewomen *Cold War Workers* raises questions about

the influence of settler colonial masculine institutional values on those who laboured for the Cold War state and society By comparing the experiences of different types of workers families and communities this volume reveals how race gender and privilege affected people in varied and sometimes unexpected ways *When the Crisis Becomes an Opportunity* Paola Paoloni,Rosa Lombardi,2023-03-16 This edited volume analyzes how the COVID 19 crisis could be transformed into opportunities for those organizations that correctly interpret the change adapt their strategies accordingly and increase their chances of success in a post pandemic scenario Through this lens the female role and contribution to recovery are analyzed and discussed in the economic financial and social context Even if many aspects set the COVID 19 crisis apart from the latest global financial crises such as the unusual shutdown of businesses in specific sectors social distancing regulations and general uncertainty sparked by the pandemic the challenges facing all organizations in the current recovery phase can present an opportunity for extraordinary growth and development in Europe The focus of the contributions gathered here is not on counting the damages and losses but rather on monitoring the recovery and on emerging instruments to support national and global economic recovery while paying special attention to women s role in it Official Records United Nations.
