Navigating The Digital Shift: Implementation Strategies for Blended and Online Learning John Bailey, Carri Schneider, Tom Vander Ark, 2013-10-09 Our nation's schools stand at an important inflection point in the history of education. Taken together, the implementation of common college and career standards, the shift to next generation assessments, the availability of affordable devices, and the growing number of high quality digital instructional tools create an unprecedented opportunity to fundamentally shift the education system to personalize learning around the individual needs of every student. Digital Learning Now (DLN), a national initiative under the Foundation for Excellence in Education (ExcellinEd) in association with Getting Smart, brings *Navigating the Digital Shift: Implementation Strategies for Blended and Online Learning* to readers interested in exploring the implementation challenges at the intersection of these shifts. Co-authored by John Bailey, Carri Schneider, and Tom Vander Ark, *Navigating the Digital Shift* offers updated versions of the eight papers originally released in the DLN Smart Series, including contributions from 11 additional co-authors representing leading organizations such as Public Impact, the International Association for K-12 Online Learning (iNACOL), and The Learning Accelerator. Topics include blended learning implementation, teaching conditions, and careers competency-based learning, student data, online learning myths, and student-based funding. Jeb Bush, Governor of Florida from 1999-2007 and Chairman of ExcellinEd, contends that the book provides policymakers and education leaders the tools they need to use digital learning as a catalyst for improved student achievement. AASA 2013 Superintendent of the Year Dr. Mark Edwards believes the collection provides meaningful practical and poignant advice as well as commentary regarding the move to college and career-ready standards associated with the shift to personal online learning and digital resources. Rhode Island's Commissioner of Elementary and Secondary Education, Deborah Gist, describes the book as an invaluable resource that will help educators re-imagine what our schools can look like and what our students can accomplish. *The American Biology Teacher*, 1996 *Choice*, 2005 **American Agriculturist**, 1901 *Resources in Education*, 1990 **Michigan School Moderator**, 1891 *Writing after Retirement* Carol Smallwood, Christine Redman-Waldeyer, 2014-09-04 Unlike previous volumes which focus on how to earn a living while writing in very specific areas, this anthology accurately describes a wide range of different avenues an aspiring author can pursue, either for profit or for personal fulfillment. Speaking directly to retirees, this book opens doors to many other areas worth pursuing; its chapters vary from the inspirational to the importance of linking to a community with similar interests, reconnecting to one's dreams, seeking inspirational sources, to the quotidian everyday writing tips and how to use one's experience to find subjects to write about. *Writing after Retirement* provides a variety of vantage points from published authors and paints a realistic portrayal of what it takes to get started in the industry. This book also includes preparation for the challenges that aspiring writers face and practical guides for overcoming them. A range of issues are addressed: Linking one's writing to current activities, The nuts and bolts of writing, Planning one's estate, New career paths, Writing opportunities.
