How To Choose Work From Home Jobs For Students:

Creating Sustainable Careers in Student Affairs Margaret Sallee, 2023-07-03 This book argues that the current structure of student affairs work is not sustainable as it depends on the notion that employees are available to work non stop without any outside responsibilities that is the Ideal Worker Norm The field places inordinate burdens on staff to respond to the needs of students often at the expense of their own families and well being Student affairs professionals can meet the needs of their students without being overworked The problem however is that ideal worker norms pervade higher education and student affairs work thus providing little incentive for institutions to change The authors in this book use ideal worker norms in conjunction with other theories to interrogate the impact on student affairs staff across functional areas institutional types career stage and identity groups The book is divided into three sections chapters in the first section of the book examine various facets of the structure of work in student affairs including the impact of institutional type and different functional areas on employees work lives Chapters in the second section examine the personal toll that working in student affairs can take including emotional labor s impact on well being The final section of the book narrows the focus to explore how different identity groups including mothers fathers and people of color navigate work life issues Challenging ideal worker norms all chapters offer implications for practice for both individuals and institutions *Ferguson Career Resource Guide to Internships and Summer Jobs, 2-Volume Set* Carol Turkington, 2014-05-14 Provides details on over 550 internships and summer jobs **Career Education K-12**, 1983 Resources in Education, 1981 **HBR Working Parents Starter Set (5 Books)** Harvard Business Review, Daisy Dowling, Eve Rodsky, Bruce Feiler, Alice Boyes, 2022-08-02 All the advice you need to succeed as a first time working parent The year after having your first baby can be one of the most challenging and disorienting periods of your career From finding the best childcare when you return to work to setting expectations with your manager to getting enough sleep so you can show up as the person you want to be and do your job well juggling it all can seem impossible You re not alone but you re going through a tough moment and you need support The HBR Working Parents Starter Set offers insights and practical advice from world class experts on the topics that are the most important to new working parents who want to be great parents and have impactful careers The five books in this set Succeeding as a First Time Parent Getting It All Done Taking Care of Yourself Managing Your Career and Communicate Better with Everyone will teach you how to transition back to work effectively make decisions that align with your priorities find time for personal development and make career choices that work for you and your family There s no simple answer or foolproof tip to make working parenthood easy but the strategies in this collection can help set you on the path toward finding success both in your career and as a parent The HBR Working Parents Series with Daisy Dowling Series Editor supports readers as you anticipate challenges learn how to advocate for yourself more effectively juggle your impossible schedule and find fulfillment at home and at work Whether you re up with a newborn or planning the future with your teen you ll find the practical tips strategies

and research you need to make working parenthood work for you The Smart Set George Jean Nathan, Henry Louis Mencken, 1923 **Vocational Education News**, 1929 *The Smart Set*, 1922 **The Agricultural Student**, 1921

Highlights career profiles of successful professionals in various occupations *System*, 1920 *Industrial Arts & Vocational Education*, 1922 *Higher Education at Risk* Sandra Featherman, 2023-07-03 Sandra Featherman believes that colleges are in denial about the severity of the threats to the current model of higher education Based on her own experience as a president as a trustee and as a board member who has worked in private and public universities and on interviews with the presidents of major institutions she offers both a trenchant analysis of those threats and clear prescriptions about the painful but necessary decisions that colleges need to make to ensure they remain viable accessible and affordable and deliver a high quality education Sandra Featherman considers higher education to be at a game changing moment When markets don't function well as is the case with today's college marketplace with offerings that cost too much and return too little it opens the door to new types of suppliers who offer new ways of providing what students are looking for particularly the increasing cohort of mature working students In the face of new competitors for profit education companies technology start ups and foreign universities vying for international students trustees and senior level administrators are generally stuck in a traditional ethos and with decision making processes unsuited to these times They know what used to work and find it easier to follow old ways than to make the difficult transition to new ways of delivering education She lays out a strategy that emphasizes the centrality of students and how to provide them with the most effective learning environment that is clear eyed about focusing on the core missions and abandoning practices that constrain or impede them and that requires constant self monitoring to learn from and act upon what works She offers a blueprint for redesigning institutions for paring away what is unnecessary and cost ineffective and for adopting the best technologies all in the service of developing meaningful degree programs at an affordable price and widening access for under represented groups She ranges over the implications of budget decisions accreditation and MOOCs addresses government regulation and tuition costs presents promising new models and concludes with 11 key recommendations that should be heeded by all higher education administrators and trustees
