Serves as a comprehensive guide for educators, policymakers and technology developers interested in the power of AI in educational environments. This book serves as a timely reference in the current era of AI tools and education. It is written for those who work in the education sector as well as researchers, academicians, undergraduate and graduate students, those involved with undergraduate teaching in critical thinking and problem solving for information systems, information technology, computer science and engineering and all teaching institutions where AI tools have been or will be introduced. **Improving Student**

**Assessment With Emerging AI Tools** Moreira, Filipe T., Teles, Rui Oliva, 2024-11-29 Traditional assessment methods often struggle to provide a comprehensive view of student understanding and capabilities leading to a one size fits all approach. However, AI driven tools offer personalized adaptive assessments that can adjust to individual learning styles and paces. These technologies can analyze vast amounts of data to identify trends, learning gaps and specific areas where students may need additional support. By harnessing AI for assessments, educators gain real time insights enabling them to tailor instruction and provide targeted feedback. AI can streamline administrative tasks allowing teachers to focus on fostering meaningful learning experiences. Further exploration into these tools may enhance the assessment landscape making it more dynamic, inclusive and effective for diverse learners. *Improving Student Assessment With Emerging AI Tools* explores the positive effects of AI tools on educational assessments. The impact of intelligent technology on automated grading, teaching and learning is examined. This book covers topics such as learning styles, personalized learning and teacher training and is a useful resource for academicians, educators, computer engineers, data scientists and researchers. **Virtual, Augmented and Mixed Reality** Jessie Y.
