Kushniruk,David R. Kaufman,Thomas G. Kannampallil,Vimla L. Patel,2024-11-13 This thoroughly updated edition reports on the current state of

human computer interaction HCI in biomedicine and healthcare focusing on the cognitive underpinnings of human interactions with people and technology With health information technologies becoming increasingly vital tools for the practice of clinical medicine this book draws from key theories models and evaluation frameworks and their application in biomedical contexts to apply this to current research in HCI However numerous challenges remain in order to fully realize their potential as instruments for advancing clinical care and enhancing patient safety There is a general consensus that health IT has not realized its potential as a tool to facilitate clinical decision making the coordination of care and improvements in patient safety Embracing sound principles of iterative design can yield significant dividends It can also enhance practitioner s abilities to meet meaningful use requirements The purpose of the book is two fold to address key gaps on the applicability of theories models and evaluation frameworks of HCI and human factors for research in biomedical informatics It highlights the state of the art drawing from the current research in HCI It also serves as a graduate level textbook highlighting key topics in HCI relevant for biomedical informatics computer science and social science students working in the healthcare domain Cognitive Informatics for Biomedicine Human Computer Interaction in Healthcare is indispensable to those who want to ensure that the systems they build and the interactive environments that they promote will reflect the rigor and dedication to human computer interaction principles that will ultimately enhance both the user s experience and the quality and safety of the care that is offered to patients It is an essential reference to all who are interested in the application of these new techniques within healthcare from students of informatics through to clinicians informatics researchers and developers of health IT looking to incorporate them into their day to day workflow

*Unit X* Raj M. Shah, Christopher Kirchhoff, 2024-07-09 Shortlisted for the 2024 Financial Times Business Book of the Year A riveting inside look at an elite unit within the Pentagon the Defense Innovation Unit also known as Unit X whose mission is to bring Silicon Valley s cutting edge technology to America s military from the two men who launched the unit A vast and largely unseen transformation of how war is fought as profound as the invention of gunpowder or advent of the nuclear age is occurring Flying cars that can land like helicopters artificial intelligence powered drones that can fly into buildings and map their interiors microsatellites that can see through clouds and monitor rogue missile sites all these and more are becoming part of America s DIU fast tracked arsenal Until recently the Pentagon was known for its uncomfortable relationship with Silicon Valley and for slow moving processes that acted as a brake on innovation Unit X was specifically designed as a bridge to Valley technologists that would accelerate bringing state of the art software and hardware to the battle space Given authority to cut through red tape and function almost as a venture capital firm Shah Kirchhoff and others in the Unit who came after were tasked particularly with meeting immediate military needs with technology from Valley startups rather than from so called primes behemoth companies like Lockheed Raytheon and Boeing Taking us inside AI labs drone workshops and battle command centers and also overseas to Ukraine s frontlines Shah and Kirchhoff paint a fascinating picture of what

it takes to stay dominant in a fast changing and often precarious geopolitical landscape In an era when America s chief rival China has ordered that all commercial firms within its borders make their research and technology available for military exploitation strengthening the relationship between Washington and Silicon Valley was always advisable Today it is an urgent necessity
