Potential of AI to Replace Teachers' Expertise: Ethics and Challenges Khan, Shahnawaz,Pringuet, Philippe,2025-10-16 As artificial intelligence AI advances its integration into education sparks excitement and concern regarding its potential to replace human teacher expertise While AI tools can personalize learning automate administrative tasks and provide real time feedback substituting humans raises ethical questions and practical challenges Teaching also involves empathy critical thinking and social interaction which are difficult for current machines to replicate This dynamic begs for critical examination of how far AI should be allowed to go in educational settings and whether it can or should replace the human elements of teaching

Potential of AI to Replace Teachers Expertise Ethics and Challenges explores the ethical considerations practical strategies and potential challenges associated with the integration of AI tools into the classroom It provides educators with the necessary knowledge and tools to effectively leverage AI to enhance the teaching and learning experience for students and educators This book covers topics such as ethics and law assessments and data science and is a useful resource for educators engineers policymakers academicians researchers and scientists

Born-Digital Texts in the English Language Classroom Saskia Kersten,Christian Ludwig,2024-06-11 This book is the first to focus specifically on born digital texts in EFL teaching uniting international and innovative scholarship with practical classroom applications The book develops a theoretically sound framework for curriculum materials and methods design that takes into account the growing ubiquity of born digital texts in the digital age It covers a broad variety of born digital text types including those generated by AI which so far have not been an explicit focus in the context of language teaching while also providing a grounding in current discussions around digital tools in education The chapters cover a wide

range of issues from methodological approaches to born digital texts to curriculum syllabus and materials design The book will be a valuable introduction to the subject for trainee and practising teachers as well as teacher educators and students on EFL courses Chapter 7 is free to download as an open access publication under a CC BY licence and is available here <https://zenodo.org/records/11174197>
