Algorithms of Armageddon George Galdorisi, Sam J Tangredi, 2024-03-12 It is unclear if U S policy makers and military leaders fully realize that we have already been thrust into an artificial intelligence AI race with authoritarian powers Today the United States peer adversaries China and Russia have made clear their intentions to make major investments in AI and insert this technology into their military systems sensors and weapons Their goal is to gain an asymmetric advantage over the U S military The implications for our national security are many and complex Algorithms of Armageddon examines this most pressing security issue in a clear insightful delivery by two experts Authors George Galdorisi and Sam J Tangredi are national security professionals who deal with AI on a day to day basis in their work in both the technical and policy arenas Opening chapters explain the fundamentals of what constitutes big data machine learning and artificial intelligence They investigate the convergence of AI with other technologies and how these systems will interact with humans Critical to the issue is the manner by which AI is being developed and utilized by Russia and China The central chapters of the work address the weaponizing of AI through interaction with other technologies man machine teaming and autonomous weapons systems The authors cover in depth debates surrounding the AI genie out of the bottle controversy AI arms races and the resulting impact on policy and the laws of war Given that global powers are leading large scale development of AI it is likely that use of this technology will be global in extent Will AI enabled military weapons systems lead to full scale global war Can such a conflict be avoided The later chapters of the work explore these questions point to the possibility of humans failing to control military AI applications and conclude that the dangers for the United States are real Neither a protest against AI nor a speculative work on how AI could

replace humans Algorithms of Armageddon provides a time critical understanding of why AI is being implemented through state weaponization the realities for the global power balance and more importantly U S national security Galdorisi and Tangredi propose a national dialogue that focuses on the need for U S military to have access to the latest AI enabled technology in order to provide security and prosperity to the American people **Applied Artificial Intelligence in**

Ernest Salazar,2025-01-30 A city simmering with magic A chef haunted by his past A culinary battle that could save them all In Saffron City where flavor is power the annual Seven Sauce Showdown isn t just a cooking competition it s a high stakes war of culinary magic Exiled chef Carmine LeGall once a legend now a pariah after a disastrous royal banquet is thrust back into the spotlight when the reigning champion vanishes Given a frantic week Carmine must master the fabled Seven Sauces each a vessel of potent magic hidden across treacherous landscapes His journey begins amidst the volcanic tantrums of the Obsidian Peaks for the strength of the crimson chili and continues through the whispering secrets of the sentient vines within the Whispering Jungle seeking the wisdom of creamy coconut curry He braves the deceptive illusions of the Crystal Caves for the golden light of saffron But these are no mere ingredients they re keys to power guarded by the very essence of the city s magic As he hunts for the sauces rival chefs circle like predators Eliza Lynch with her dark twisted spices and David Navarro a culinary traditionalist resentful of Carmine s abuse of tradition But the Showdown isn t what it seems Carmine discovers it s a ritual to awaken an ancient deity of chaos and the city s elite are in on it Now the culinary battle becomes a desperate fight for survival with the help of spice merchant Amara and the enigmatic Flavor Guardians Carmine must cook his way through a conspiracy master the sauces and forge a dish that defies destiny all while battling his inner demons His cooking isn t just about food anymore it s an act of rebellion against a hungry god his only hope to save a city where flavor is not only power but also the key to redemption **Gendered Technology in Translation and Interpreting** Esther

Monzó-Nebot,Vicenta Tasa-Fuster,2024-07-18 This collection takes an interdisciplinary approach to the study of gendered technology an emerging area of inquiry that draws on a range of fields to explore how technology is designed and used in a way that reinforces or challenges gender norms and inequalities The volume explores different perspectives on the impact of technology on gender relations through specific cases of translation and interpreting technologies In particular the book considers the slow response of legal frameworks in dealing with the rise of language based technologies especially machine

translation and large language models and their impacts on individual and collective rights Part I introduces the study of gendered technologies at this intersection of legal and translation and interpreting research before moving into case studies of specific technologies The cases explored in Parts II and III discuss the impact of interpreting and translation technologies on language professionals language communities and gender inequalities while stressing the future needs of gendered technology particularly machine translation Taken together the collection demonstrates the value of a cross disciplinary approach in better understanding how language technologies can be harnessed to address discrimination and contribute to growing discussions on gender equality and social justice at the intersection of technology and translation This book will be of interest to scholars in translation and interpreting studies gender studies language technologies and language and the law
