Advanced Coaching Pocketbook Lynne Walley, 2016-09-23 Central to the Advanced Coaching Pocketbook is SPACE, a 5-step model enabling coaches to reflect on and assess their own approach to coaching and deepen their awareness of the coaching process. HR and OD professionals wanting to create a coaching culture will also find the tips and tools beneficial. Each step of the model is described in a separate chapter, and for each step the author recommends appropriate tools designed to put the theory firmly into practice. Exercises and graphic devices help to embed the understanding. SPACE was tested by practitioners across the UK and further afield. How they applied the model in practice was subsequently surveyed, and their responses used to inform the model and its description in this pocketbook. The survey results give real insight into the different aspects of coaching, an enthusiastic Lynne Walley declares.

Virtual Teams That Work Cristina B. Gibson, Susan G. Cohen, 2003-03-21 Virtual Teams That Work offers a much-needed comprehensive guidebook for business leaders and managers who want to create the organizational conditions that will help virtual teams thrive. Each chapter in this important book focuses on best practices and includes case studies and illustrative examples from a wide variety of companies, including British Petroleum, Lucent Technologies, Ramtech, SoftCo, and Whirlpool Corporation. These real-life examples demonstrate how the principles identified in the book play out within virtual teams. Virtual Teams That Work shows how organizations can put in place the structure to help team members who speak different languages and have different cultural values develop effective ways of communicating when there is little opportunity for the members to meet face-to-face. The authors also reveal how organizations can implement performance management and reward systems that will motivate team members to cooperate across multiple boundaries. And they offer the information to determine which technologies best fit a variety of virtual team tasks and the level of information technology support needed.
