Brenner, Jayne Downey, Karen Eppley, Ann K. Schulte, 2020-12-16 This teacher education textbook invites preservice and beginning teachers to think critically about the impact of rurality on their work and provides an overview of what it means to live, teach, learn, and thrive in rural communities. This book underscores the importance of teaching in rural schools as an act of social justice work that dismantles spatial barriers to economic, social, and political justice. Teaching in Rural Places begins with a foundational section that addresses the importance of thinking about rural education in the U.S. as an educational environment with particular challenges and opportunities. The subsequent chapters address rural teaching within concentric circles of focus from communities to schools to classrooms. Chapters provide concrete strategies for understanding rural communities, valuing rural ways of being, and teaching in diverse rural schools by addressing topics such as working with families, building professional networks, addressing trauma, teaching in multi-grade classrooms, and planning place-conscious instruction. The first of its kind, this comprehensive textbook for rural teacher education is targeted toward preservice and beginning teachers in traditional and alternative teacher education programs as well as new rural teachers participating in induction and mentoring programs. Teaching in Rural Places will help ensure that rural students have the well-prepared teachers they deserve. **Financial Services and General Government Appropriations for 2015** United States.
