Virtual Assistant Ali Soofastaei,2021-10-13 An intelligent virtual assistant IVA or intelligent personal assistant IPA is a software agent that can perform tasks or services for an individual based on commands or questions Improving the quality of artificial intelligence AI learning algorithms increases the application of IVAs in different areas The capabilities and usage of IVAs are expanding rapidly IVAs such as Siri Alexa and chatbots help individuals and companies to make better decisions They learn from collected historical data and the quality of their recommendations depends on the size of the database they are using Modern technology has provided a huge capacity for data collection and storage This means

that the new generation of IVAs can help people much better than the previous one This book examines the applications of IVAs in different areas and presents a clear vision of how this new technology can be used in current and future activities Chapters cover such topics as the scientific development of VA technology generating voices for IVAs the ethics of using IVAs and using IVAs in banking and finance

The Cybersecurity Trinity Donnie W. Wendt, 2024-12-11 This book explores three crucial topics for cybersecurity professionals artificial intelligence AI automation and active cyber defense ACD The Cybersecurity Trinity will provide cybersecurity professionals with the necessary background to improve their defenses by harnessing the combined power of these three concepts The book is divided into four sections one addressing each underlying concept and the final section discussing integrating them to harness their full potential With the expected growth of AI and machine learning ML cybersecurity professionals must understand its core concepts to defend AI and ML based systems Also most cybersecurity tools now incorporate AI and ML However many cybersecurity professionals lack a fundamental understanding of AI and ML The book's first section aims to demystify AI and ML for cybersecurity practitioners by exploring how AI and ML systems work where they are vulnerable and how to defend them Next we turn our attention to security automation Human centered cyber defense processes cannot keep pace with the threats targeting organizations Security automation can help defenders drastically increase the speed of detection and response This section will discuss core use cases that security teams can implement including intelligence processing incident triage detection and response This section will end with strategies for a successful security automation implementation and strategies that can lead to failure Accelerating the defense is but one side of the equation Defenders can also implement ACD methods to disrupt and slow the attacker Of course ACD spans a broad spectrum including some that could raise legal and ethical concerns This section will explore some ACD methods and discuss their applicability as well as the need to include business legal and ethical considerations when implementing them Security teams often treat AI automation and ACD as disparate solutions addressing specific problems However there is much overlap and security teams must develop a cohesive approach to realize the full potential The last section combines these three concepts to form a comprehensive strategy The resulting strategy will have AI as the foundation incorporating automation to speed up defense and ACD to disrupt the attacker

What You Will Learn Understand the many uses of AI and ML and the concepts underpinning these technologies Learn how to protect AI and ML systems by recognizing the vulnerabilities throughout their lifecycle Integrate AI and ML based systems to enhance cybersecurity Develop security automation processes to enhance situation awareness speed the time to respond and increase the bandwidth of the limited security operations staff Develop an ACD strategy to slow the attackers while minimizing legal and ethical concerns Design a comprehensive strategy with AI as the foundation incorporating automation to speed up defense and ACD to disrupt the attacker

Who This Book is for The primary audience is cybersecurity professionals looking to improve their organization's security posture by leveraging AI and ML based security tools and combining them into a

comprehensive strategy incorporating automation and ACD This target audience will have a cybersecurity background and an interest in AI and ML Higher education would be a secondary audience

My City Links: September 2023 Issue My City Links,2023-09-01 Ask anyone who they look up to and give credit to for being the person that they have become chances are that a teacher will be on their list along with parents family members and close friends To mark Teacher s Day our Cover Story for this edition pays tribute to the role that teachers play in our lives Anybody who was around in the 80s would remember the pulsating beats and the psychedelic lights that were synonymous with a new form of music that held the world in thrall A special feature in City Tales revisits the birth of Disco music its impact on the Bollywood film industry and its eventual decline of sorts With the growing realisation that Artificial Intelligence AI is here to stay discussions these days often veer around to the influence this latest revolution in technology can have on different human endeavours In City Tech we take a look at some of the latest AI tools that can be used for a variety of functions As it happens advances in technology invariably come with their own unique challenges Preventing cybercrime and identifying the perpetrators is one such challenge for law enforcement agencies these days and official data on the nature and number of such incidents presents a grim picture Twin City police chief Soumendra Priyadarshi discusses the challenges in City Beat The section also looks at diseases like dengue that make an appearance during the monsoon season We speak with health and municipal officials to bring you a ground report In Screen Shots we catch up with the newest star on the block who is creating quite the buzz on the OTT circuit these days Life has not been the same for actor Prem Parija who had earlier worked as an assistant director for Bollywood films since he was signed up to play the lead role in the Commando series The section also features Odia film producer Sanjay Nayak and filmmaker NG Reddy During the course of a freewheeling chat they discuss the current state of the Ollywood film industry and what needs to be done to draw the audience back to the movie theatres This edition explores the interesting 200 year old Urdu poetry tradition of Mushaira in the city of Cuttack City Culture and the inspiring story of an 18 year old entrepreneur who is rewriting the rules of success City Biz
