Lauder insightful and deeply researched Richard Florida and A must read Mohammed A. El-Erian In today's world the acceleration of megatrends increasing longevity and the explosion of technology among many others are transforming life as we now know it In *The Perennials* bestselling author of 2030 Mauro Guillén unpacks a sweeping societal shift triggered by demographic and technological transformation Guillén argues that outmoded terms like Boomers Gen X Millennials and Gen Z have long been used to pigeonhole us into rigid categories and life stages artificially preventing people from reaching their full potential A new postgenerational workforce known as perennials individuals who are not pitted against each other either by their age or experience makes it possible to liberate scores of people from the constraints of the sequential model of life and level the playing field so that everyone has a chance at living a rewarding life Guillén unveils how this generational revolution will impact young people just entering the workforce as well as those who are living and working longer This multigenerational revolution is already happening and Mauro Guillén identifies the specific cultural organizational and policy changes that need to be made in order to switch to a new template and usher in a new era of innovation powered by the perennials

**Panic Now?** Ira Allen, 2024-06-11 When was the best time to panic about the varying crises facing humanity Twenty years ago But the next best time Now In line with other considerations of what we have come to call the Anthropocene in *Panic Now: Tools for Humanizing* Ira J. Allen takes the reader on a journey through difficult feelings about the various crises facing humanity and from there to new ways of facing impending dread with a sense of empowerment The interrelated threats of climate collapse an artificial intelligence revolution a sixth mass extinction a novel chemical crisis and more are all brought to us by what Allen describes as CaCaCo the carbon capitalism colonialism assemblage After suggesting that it is absolutely time to panic he asks how do we manage to panic productively Admitting there is no one script for everyone to follow the author traces how we might adopt attitudes and practices that allow us to move through this liminal space between fear and action collectively This book is a master class in how to create better more humanizing outcomes by confronting the panic that goes along with the realization that the world as we know it is ending Rather than remaining mentally emotionally imaginatively and practically stuck in this historical condition Allen invites us to a very particular action oriented mode of panic which can indeed incite our imaginations to move from panic to empowerment
