Digital Technology and Justice Tania Sourdin, Jacqueline Meredith, Bin Li, 2020-11-24 Justice apps mobile and web based programmes that can assist individuals with legal tasks are being produced improved and accessed at an unprecedented rate These technologies have the potential to reshape the justice system improve access to justice and demystify legal institutions Using artificial intelligence techniques apps can even facilitate the resolution of common legal disputes However these opportunities must be assessed in light of the many challenges associated with app use in the justice sector These include the digital divide and other accessibility issues the ethical challenges raised by the dehumanisation of legal processes and various privacy security and confidentiality risks Surveying the landscape of this emergent industry this book explores the objectives opportunities and challenges presented by apps across all areas of the justice sector Detailed consideration is also given to the use of justice apps in specific legal contexts including the family law and criminal law sectors The first book to engage with justice apps this book will appeal to a wide range of legal scholars students practitioners and policy makers

Conversational Artificial Intelligence Romil Rawat, Rajesh Kumar Chakrawarti, Sanjaya Kumar Sarangi, Anand Rajavat, Mary Sowjanya Alamanda, Kotagiri Srividya, K. Sakthidasan Sankaran, 2024-01-30 This book reviews present state of the art research related to the security of cloud computing including developments in conversational AI applications It is particularly suited for those that bridge the academic world and industry allowing readers to understand the security concerns in advanced security solutions for conversational AI in the cloud platform domain by reviewing present and evolving security solutions their limitations and future research directions Conversational AI combines natural language processing NLP with traditional software like chatbots voice assistants or an interactive voice recognition system to help customers through either a spoken or typed interface Conversational chatbots that respond to questions promptly and accurately to help customers are a fascinating development since they make the customer service industry somewhat self sufficient A well automated chatbot can decimate staffing needs but creating one is a time consuming process Voice recognition technologies are becoming more critical as AI assistants like Alexa become more popular Chatbots in the corporate world have advanced technical connections with clients thanks to improvements in artificial intelligence However these chatbots increased access to sensitive information has raised serious security concerns Threats are one time events such as malware and DDOS Distributed Denial of Service assaults Targeted strikes on companies are familiar and frequently lock workers out User privacy violations are becoming more common emphasizing the dangers of employing chatbots Vulnerabilities are systemic problems that enable thieves to break in Vulnerabilities allow threats to enter the system hence they are inextricably linked Malicious chatbots are widely used to spam and advertise in chat rooms by imitating human behavior and discussions or to trick individuals into disclosing personal information like bank account details [My City Links: March 2025 Issue](#) My City Links, 2025-03-04 Ruling hearts captivating minds Odia film industry s first superstar leaves behind an enduring legacy When

veteran actor and Odia film industry's first superstar Uttam Mohanty passed away last month he left behind a void that will be difficult to fill in a hurry Our Cover Story puts together the amazing journey of a man who made a special place in the hearts and minds of people not just with his on screen persona but also with his demeanour in real life We join leading lights of the Odia film industry in paying a richly deserved tribute Each year March 21 is observed as the World Down Syndrome Day to raise awareness about this genetic condition in a bid to ensure their inclusion in the mainstream of society City Health explores what this condition is all about and the care and support system needed for people with Down Syndrome Since being sworn in after a historic win in the Odisha Assembly elections in June last year the Mohan Charan Majhi government has made its intentions clear through a series of initiatives to develop the state City Affairs brings you all the details from the Odisha Budget 2025-26 to the recent Utkarsh Odisha Make in Odisha Conclave 2025 In City Literature we take up *The Nightingale* a novel that tells the moving story of two sisters set against the backdrop of Nazi occupied France in World War II With its poignant themes and skilful narration of the disparate yet closely entwined experiences of the principal protagonists the novel is an enduring account of human resilience That creativity recognises no borders has been demonstrated yet again with a short film that was conceptualized in Cuttack shot in Kabul and saw post production work in three countries Screen Shots brings you all the details Four years ago a Malayalam film *The Great Indian Kitchen* turned the spotlight firmly on a disturbing yet little spoken about reality in many Indian households In 2024 its Hindi screen adaptation *Mrs* reignited discussions on the roles that a deeply patriarchal mindset assigns to women Cityflix weighs in on the debate taking a close look at how the two films have dealt with the subject and the responses that they have elicited Elsewhere in the edition a new City Tales series brings you snapshots of temple tanks in Bhubaneswar that embody the region's rich religious and cultural traditions In City Green an informative news feature marks World Sparrow Day which is observed on March 20 every year

Bots Nick Monaco, Samuel Woolley, 2022-05-10 Bots automated software applications programmed to perform tasks online have become a feature of our everyday lives from helping us navigate online systems to assisting us with online shopping Yet despite enabling internet users bots are increasingly associated with disinformation and concerning political intervention In this ground breaking book Monaco and Woolley offer the first comprehensive overview of the history of bots tracing their varied applications throughout the past sixty years and bringing to light the astounding influence these computer programs have had on how humans understand reality communicate with each other and wield power Drawing upon the authors decade of experience in the field this book examines the role bots play in politics social life business and artificial intelligence Despite bots being a fundamental part of the web since the early 1990s the authors reveal how the socially oriented ones continue to play an integral role in online communication globally especially as our daily lives become increasingly automated This timely book is essential reading for students and scholars in Media and Communication Studies Sociology Politics and Computer Science as well as general readers with an interest in technology and public affairs
