Free Global Cities Christian H Kälin, 2025-03-20. This book proposes a new solution to the problem of the migration crisis engulfing the world by creating safe harbours or Free Global Cities. In the face of the largest displacement crisis on record, even the most optimistic view of the future suggests that in the years ahead, more and more people will migrate in order to survive. The world requires places where refugees and other migrants forced to leave their homes have the opportunity to work, study, create, start businesses, and rebuild new lives for themselves and their families. Free Global Cities can deal with this growing global crisis in a completely new way. They are autonomous, self-governed, subnational entities that provide a safe environment and rule of law that will create wealth and prosperity for its residents as well as for the nations hosting them. Such a model would contribute significantly to handling the largest migration crisis in history, which the world will be experiencing in the coming decades.

Civil Society and Pakistan's Economy Fayyaz Baqir, 2023-03-17. This book analyses the paradoxes of Pakistan's economy: meritocratic domestic policy and the role of the state and the civil society. It argues that the transition in the country's foreign policy from geo-politics to geo-economic depends on a fundamental domestic policy transition from kleptocracy to meritocracy. Civil Society and Pakistan's Economy discusses how the prevalence of rent-seeking practices has undermined merit-based practices by increasing the cost of doing business and converting public loss into private profit by awarding inappropriate subsidies and imposing regressive taxes. The analyses are supported by describing the instruments and mechanisms used for rent-seeking practices and the creation of public awareness of options available to change these practices through citizen's action and civil society engagement. The book also shows the path of transformation and the role of participation and argues that aspiring for and capturing power is not the only way to transform Pakistan. A novel analysis depicting macro-micro linkages of encroachment of socio-economic space by the power elites and effective strategies used for its reappropriation by the people, the book will be of interest to academics.
