Leveraging AI for Human-Centered Learning Marlee S. Bunch,Brittany R. Collins,2025-07-22 Leveraging AI for Human Centered Learning provides intentional approaches to the integration of artificial intelligence tools into middle and high school classrooms specifically to foster equity and social emotional wellbeing The overlap of AI with today s schools poses pivotal questions about ethics morality inclusion and human learning at a time when students are already reckoning with public health crises systemic injustice and other connected challenges This book helps teachers examine the pros and cons of artificial intelligence as used by both educators and students as well as its implications for meaningful culturally responsive teaching and social emotional learning efforts Featuring activities lesson plans and discussion and writing prompts for use with adolescent learners each chapter offers concrete pedagogical approaches and instructional innovations that align technological changes with learning objectives in ways that advance rather than replace or neutralize attention to equity and well being

Social and Ethical Considerations of AI in East Asia and Beyond Levi Checketts,Benedict S. B. Chan,2025-02-17 This book is a global reflection on disparate religious and philosophical approaches to questions of AI and the particular ways these questions affect East Asian societies These chapters originate from a conference held at Hong Kong Baptist University in April 2023 on Ethical and Social Issues in AI East Asia and Beyond Sections cover Confucianist Daoist and Christian reflections on AI ethics Chapters on broad theoretical questions that AI poses are included as well as those addressing issues in applied AI ethics This volume appeals to students and researchers working across cultures and traditions on the philosophy of AI technology

PISA How 15-Year-Olds Learn English Case Studies from Finland, Greece, Israel, the Netherlands and Portugal OECD,2024-02-20 This report presents country findings from interviews with 15 year olds English language teachers and school principals and wider background research as well as a comparative chapter on key international insights

Revolutionizing English Education Clarice M. Moran,2024-04-30 Artificial Intelligence or AI has

seemingly burst into public consciousness with sudden vigor Previously relinquished to computer science journals it erupted as the unrelenting topic of public media with most of the furor surrounding chatbots like ChatGPT Although many educators began worrying about the implications of AI in student learning and creative activity this book will demonstrate that AI can be harnessed as a source of inspiration and meaningful instruction With an emphasis on useful classroom strategies as well as a consideration of the ethics of AI this book seeks to start a conversation in this nascent area of research and practice The primary focus is on the use of AI in the secondary English classroom but educators in other disciplines will find plenty of ideas and information
