Digital Entrepreneurship Mariusz Soltanifar, Mathew Hughes, Lutz Göcke, 2020-11-13. This open access book explores the global challenges and experiences related to digital entrepreneurial activities using carefully selected examples from leading companies and economies that shape world business today and tomorrow. Digital entrepreneurship and the companies steering it have an enormous global impact; they promise to transform the business world and change the way we communicate with each other. These companies use digitalization and artificial intelligence to enhance the quality of decisions and augment their business and customer operations. This book demonstrates how cloud services are continuing to evolve, how cryptocurrencies are traded in the banking industry, how platforms are created to commercialize business, and how taken together these developments provide new opportunities in the digitalized era. Further, it discusses a wide range of digital factors changing the way businesses operate, including artificial intelligence, chatbots, voice search, augmented and virtual reality, as well as cyber threats and data privacy management. Digitalization mirrors the Industrial Revolution's impact. This book provides a complement of perspectives on the opportunities emanating from such a deep-seated change in our economy. It is a comprehensive collection of thought leadership mapped into a very useful framework. Scholars, digital entrepreneurs, and practitioners will benefit from this timely work.

Gina O'Connor, Professor of Innovation Management at Babson College, USA. This book defines and delineates the requirements for companies to enable their businesses to succeed in a post-COVID19 world. This book deftly examines how to accomplish and achieve digital entrepreneurship by leveraging cloud computing, AI, IoT, and other critical technologies. This is truly a unique must-read book because it goes beyond theory and provides practical examples.
