Artificial Intelligence in Social Media IntroBooks Team,

Artificial Intelligence has revolutionized and transformed Social Media in many innovative ways With around 3 billion people connected to various social media platforms they are generating a huge mass of data Now the question is Why should social media be concerned about all this data floating around The answer to this question is that this meta data is of great value to social media platforms One reason is that social networks can keep themselves relevant with times only if they keep themselves abreast about the needs wants and choices of the users from multiple geographical locations Another reason is that they get to monetize this information when they share their platforms with advertisers and marketers AI is one single solution for both these scenarios
